# CONSTRUCTION NEWS

Supplement to ENGINEERING NEWS. New York, March 8, 1906.

## CONTENTS.

CONSTRUCTION NEWS:
Plans, Specifications on File ..... 83
List of Contracts Pending ..... 83
Railroads ..... 84
Electric Railways ..... 84
Light and Power Plants ..... 85
Bridges ..... 85
Buildings ..... 86
Water Supply and Irrigation ..... 86
Sewerage ..... 87
Garbage Disposal ..... 87
Streets and Roads ..... 87
Manufacturing Plants ..... 87
Miscellaneous Contracts ..... 88
Foreign Contracts and Export News ..... 88
Construction Prices ..... 89-90
READERS' WANTS ..... 88
CIVIL SERVICE EXAMINATIONS ..... 89
INDUSTRIAL NOTES ..... 89-90
TRADE PUBLICATIONS ..... 91
PROPOSALS ..... 91-92

## CONSTRUCTION NEWS.

### PLANS AND SPECIFICATIONS ON FILE.

The following Plans (P.), Specifications (S.), and Bidding Sheets (B. S.) may be seen at the office of The Engineering News Publishing Co., 220 Broadway, New York.

| Bids close. | Work. | Place. | On file. | See issue. |
|---|---|---|---|---|
| Mar. | | | | |
| *9 | Cement.. | Nampa, Idaho | S. | 2- 8 |
| *10 | Two snagboats.. | Vicksburg, Miss. | P. & S. | 1-11 |
| 10 | Light & water plant.. | Wynnewood, Ind. T. | P. & S. | 2-22 |
| *10 | Bridge.. | Pedricktown, N. J. | P. & S. | 2-22 |
| *12 | Lock.. | Rock Island, Ill. | P. S. & B. S. | 2-22 |
| 12 | Railway.. | Transcontinental Ry. | S. | 2-22 |
| *13 | Powder tanks, Wash., D. C. | | S. & B. S. | 2- 8 |
| *15 | Canal.. | Oregon | P. & S. | 2- 8 |
| 15 | Vit. pipe sewers.. | Woodstock, Vt. | S. & B. S. | 3- 1 |
| *16 | Cement.. | Los Angeles, Cal. | S. & B. S. | 2-15 |
| 16 | Breakwater.. | Cleveland, O. | S. | 3- 8 |
| *17 | Pump house, etc.. | Wash., D. C. | S. | 2-22 |
| *19 | Sand filters.. | Springfield, Mass. | P. & S. | 3- 1 |
| *22 | Crematory, etc.. | Oswego, N. Y. | P. S. & B. S. | 3- 1 |
| 24 | Turbo alternators.. | New York | S. | 3- 1 |
| *30 | Bridge.. | Port Huron, Mich. | P. & S. | 2-15 |
| *30 | Lock gates.. | Pittsburg, Pa. | S. & B. S. | 3- 1 |
| 31 | Power house.. | New Orleans, La. | S. | 3- 8 |
| 31 | Timber wharf.. | Bremerton, Wash. | S. | 3- 1 |
| 31 | Power plant.. | New York | S. | 3- 1 |
| 31 | Quay wall, | Bremerton, Wash. | S. | 2-15 |
| Apr. | | | | |
| *1 | Garbage disposal.. | Auburn, N.Y. | S. | 2-22 |
| *— | Port works.. | Chile | P. & S. | 5- 4 |
| 5 | Wharves.. | Manila, P. I. | P. & S. | 12-14 |
| 7 | R. R. track scale.. | Portsmth, N.H. | S. | 3- 8 |
| *9 | Wharf.. | Guantanamo, Cuba | P. & S. | 2-22 |
| 12 | Cement.. | Glendive, Mont. | S. | 3- 8 |
| 16 | Light & power plant, | New York. | P. S. & B. S. | 2-22 |
| May | | | | |
| 4 | Wharf sheds & Rys.. | Manila, P. I. | P. & S. | 3- 1 |
| — | Steel, etc.. | Glendive, Mont. | P. & S. | 2- 8 |

*Work advertised in Engineering News.

NOTE.—We are desirous of securing specifications and bidding sheets (and plans when not too bulky) of pending work for file in our New York office for the benefit of contractors or others who may be interested in the work. If more sets than one are sent us we shall be pleased to distribute these to contractors who ask for them. When the work is advertised in Engineering News a note that the plans are filed with us will be added to the advertisement without cost.

### LIST OF CONTRACTS PENDING.

| Bids close. | Work. | Place. | On file. | See issue. |
|---|---|---|---|---|
| **LIGHT, HEAT AND POWER PLANTS.** | | | | |
| Mar. 10. | Electric light & water plant, | Wynnewood, Ind. T. | | Feb. 22 |
| Mar. 14. | Electric lighting, | New York, N. Y. | | Mar. 8 |
| Mar. 15. | Electric light plant, | Bamberg, S. C. | | Mar. 1 |
| Mar. 17. | Power house, | West Point, N. Y. | | Mar. 8 |
| Mar. 18. | Light & power plant, | Warrensville, O. | | Mar. 8 |
| Mar. 20. | Steam purifiers, | Chicago, Ill. | | Mar. 8 |
| Mar. 24. | Power plant, | New York, N. Y. | | Mar. 8 |
| Mar. 31. | Power house, | New Orleans, La. | | Mar. 8 |
| Apr. 4. | Transmission line poles, | Chicago, Ill. | | Feb. 8 |
| | Advertised, Eng. News, Feb. 8. | | | |
| Apr. 9. | Light & power plant, | Fullerton, Cal. | | Mar. 1 |
| Apr. 16. | Light & power plant, | New York, N. Y. | | Feb. 22 |
| No date. | Gas pipe line, | Cincinnati, O. | | Feb. 15 |
| **BRIDGES.** | | | | |
| Mar. 8. | Bridges, | Columbus, Neb. | | Mar. 1 |
| Mar. 9. | Viaduct, | Milwaukee, Wis. | | Mar. 8 |

## RAILWAYS.

***The names of parties awarded contracts are printed in capital letters.***

CANTON COMPANY.—We are officially advised that surveys are completed for belt line around Canton, Md., to be operated by steam. Right-of-way and capital are secured. Contracts for construction will be let in the near future. Walter B. Brooks is Pres. and Thomas M. Ward is Ch. Engr., both of Baltimore, Md.

DENVER, LARAMIE & NORTHWESTERN.—This company has been incorporated in Wyoming to build a standard-gage line from Denver, Colo., northwestwardly through Denver, Jefferson, Adams, Boulder, Weld and Larimer Counties, Colorado, and Albany, Carbon, Natrona, Fremont and Big Horn Counties, Wyoming, to the northern boundary of that state, 100 miles in Colorado and 350 miles in Wyoming. The following officers were elected at a meeting on Feb. 20: President, Charles S. Johnson, New York; First Vice-President, W. R. West, Minneapolis, Kan.; Second Vice-President, Robert H. Dwyer, Pueblo, Colo.; Third Vice-President, Sidney J. Kent, Lincoln, Neb.; Secretary, Joe T. West, Laramie; Treasurer, J. O. Curry, Boston; General Counsel, John D. Milliken, McPherson, Kan.; General Manager, Robert H. Dwyer.

GULF & NORTHWESTERN.—N. R. Morgan, Atty., Meridian, Tex., Secy. of the G. & N. W. Ry. Co., informs us that location survey of the main line of this railway from Waco, Tex., to Strawn, Tex., is now nearly completed. It is about 125 miles long, passing through Meridian and Stephensville. "The engineers' report will show a splendid profile as no point reaches as much as 1% grade. Commencing at Waco, the head of navigation on the Brazos River, and ending at the coal fields at Strawn, it traverses a thickly settled, well-developed rich, agricultural country."

GREAT NORTHERN OF CANADA.—MULLARKEY & O'BRIEN, of Montreal, Que., have been awarded the contract for building the extension from Garneau Junction to Quebec, 90 miles, and the branch from Montfort Junction to Saint Jerome, 20 miles. A. J. Gorrie is Gen. Supt. at Montreal, Que.

GRAND TRUNK PACIFIC.—Contracts for 457 miles of the main line from Touchwood Hills to Edmonton were awarded on Feb. 22, as follows: From Touchwood Hills to Saskatoon, 140 miles, to the CANADIAN WHITE CO., of Montreal, Que.; from Saskatoon to Edmonton, 317 miles, to FOLEY BROS., LARSON & CO., of Saint Paul, Minn. The last named company has the contract for the branch from Fort William to Lake Superior Junction, 210 miles, and the MACDONALD & McMILLAN CO., of Westbourne, Man., has the contract for the first section of the main line from Portage la Prairie to Touchwood Hills, 275 miles. This makes a total of 942 miles now under contract. GREER BROS., of Port Arthur, Ont., have contract for 700,000 ties. F. W. Morse is Vice-Pres. and Gen. Mgr., and B. B. Kelliher is Ch. Engr., both at Montreal.

ILLINOIS CENTRAL.—The contract for grading 39 miles of line for the Illinois Central Railroad from Haleyville, Ala., westward toward Corinth, Miss., has been let to the ALABAMA CONSTRUCTION CO., of Anniston, Ala., of which D. B. Lacy is Pres.

KNOXVILLE, SEVIERVILLE & NEWPORT.—We are officially advised that permanent survey is now being run. Sevier County voted $50,000 of bonds for this line on Feb. 24. The railroad will be built from Rockford, Tenn., to Sevierville and Newport. S. P. Condon, Knoxville, Tenn., is Pres. G. W. Pearsall is Ch. Engr., at Sevierville.

MISSOURI PACIFIC.—According to an exchange, the following is an official statement of new lines being built in the interest of this system: From Eudora, Ark., southwest to Gilbert, La., 78 miles, to be completed by November, 1906; JOHNSTON & GROMMETT BROS., with office on the work at Eudora, Ark., contractors. Gurdon & Fort Smith Railroad, under construction from Antoine, northwest 34 miles, to a point near Caddo Gap, Ark.; the DALHOFF CONSTRUCTION CO., Little Rock, Ark., contractor. Gurdon & Fort Smith Northern, under construction from a connection with the Gurdon & Fort Smith, near Caddo Gap, northwest to the Ouachita River, 28 miles; the DALHOFF CONSTRUCTION CO. has the contract for 6 miles; to be completed by August next. Springfield & Southwestern Railway, under construction from Crane, Mo., on the White River branch, to Springfield, a distance of 33 miles; to be completed by June 1; WILLIER CONSTRUCTION CO., Springfield, Mo., contractor. Coal Belt Railway, extension from the Coal Belt Railway, a branch of the St. L. I. M. & S., in Section 2, Township 9 S., Range 2 E., northeast to coal mines in Williamson County, Illinois, 2½ miles; under construction; J. A. WARE CONSTRUCTION CO., Saint Louis, Mo., contractor. E. F. Mitchell is Engr. of Construction, at St. Louis, Mo.

MIDLAND & CENTRAL.—An official report from Norfolk, Neb., states that the people of Wheeler County have voted $34,500 in bonds for the Midland & Central Ry., an extension of the Union Pacific into Keya Paha County. The bonds call for three stations in Wheeler County.

NEWTON & NORTHWESTERN.—J. L. Blake, Gen. Mgr., Boone, Ia., informs us that contracts will be let at once for building an extension to Fort Dodge, Ia., about 18 miles long.

OHIO & GULF.—We are officially informed that this company has made complete survey for its line and has secured right-of-way. Capital has not been secured. The railroad is to be 34 miles long and will be built in Tennessee. William Cooper is Pres. and R. J. Moscrip is Ch. Engr., both at Mayland, Tenn.

PEORIA & PEKIN UNION RY.—Curtiss Millard, Pres. of the Peoria & Pekin Union Ry. Co., Peoria, writes us that the board of directors has authorized construction of a gravity yard in East Peoria, containing 23 miles of tracks, involving about 140,000 cu. yds. of excavation and 2,000 cu. yds. of concrete. Bids for the work are asked until March 20, noon. Plans and specifications can be seen at the office of Stanley Millard, Ch. Engr., Room 31, Union Station, Peoria, Ill. (Advertised, Engineering News.)

SEABOARD AIR LINE.—A Wilmington, N. C. report states that Engineer Echols McBee and 18 assistants, of the Seaboard Air Line, have just completed a survey of an extension of the Seaboard Air Line from East Arcadia to Southport, N. C., a distance of about 36 miles.

SHREVEPORT NORTHEASTERN.—M. L. Scovell, Secy.-Mgr. of the Shreveport Progressive League, Shreveport, La., informs us that this line is intended to run from Shreveport to Memphis, Tenn. Immediately, however, it will only be built from Shreveport to Homer. Right-of-way has been secured and most of the grading done on 30 miles and six miles has already been built by another company, which will be absorbed by this one, leaving only about 20 miles to be surveyed and right-of-way secured. A. K. Clingman is Pres., and T. J. Hardeman is Ch. Engr., both at Keithville, La. We were recently informed by T. J. Hardeman "that surveys were completed from Shreveport to Homer via Meridian and right-of-way secured. Contract has been let to A. KINNEBREW & CO., of Homer, La. The line will be 250 miles in length, extending from Shreveport to Homer and other towns and northeasterly to Memphis, Tenn. Capital is arranged for construction."

TAMPA NORTHERN.—A. M. Atkinson, Pres., Atlanta, Ga., informs us that surveys and right-of-way will be secured as soon as possible for this railroad, which is to be built from Tampa, Fla., due north for 50 miles. Capital has been obtained. Contracts for construction are being let now. The PENNSYLVANIA STEEL CO., of Philadelphia, has contract for steel rails. Benjamin Thompson, Tampa, Fla., is Ch. Engr. of construction company.

THOMASVILLE & GULF.—We are officially advised that this company has applied for a charter in Georgia. Capital stock is subscribed for construction and contracts will be let when organization is complete. W. C. Snodgrass, Thomasville, Ga., is an incorporator. The line is to be built from Thomasville to St. Joseph's Bay, Fla., 120 miles.

UNION PACIFIC.—The contract for grading the extension from Central City to Stromsberg, Neb., 22 miles, has been awarded to I. E. DOTY, of David City, Neb. Work will begin at once, it is said.

WABASH.—It is reported that the Wabash R. R. will construct the Uniontown & Wheeling Short Line, and that John Q. Barlow, of Cumberland, Md., Ch. Engr. of the Western Maryland R. R., has been given charge of the engineering work and that negotiations have been opened by Gould representatives for the purchase of the right-of-way and surveys. The price agreed upon is said to be $10,000,000. The railroad will be 68 miles long; the property includes 100,000 acres of coal land, mainly in Green County, Pa.

WAYCROSS, SATILLA & ST. MARYS.—This company has applied for a charter in Georgia to build a railroad from Waycross to Saint Marys, with a branch from Bullhead Bluff, via Folkston, to St. George, a total of 110 miles. The main line will pass through Winokur, Bullhead Bluff and Kingsland. Capital stock, $20,000. H. A. Cannon, of Waycross, Ga., is the promoter, and the other incorporators are: D. Lott, W. E. Simmons, R. T. Hitch, W. H. Cason, M. V. Little, S. Cannon, K. Meeks, W. K. Meeks and J. E. T. Bowden.

## ELECTRIC RAILWAYS.

***The names of parties awarded contracts are printed in capital letters.***

WATERVILLE, ME.—We are officially informed that the Waterville, Oakland & Augusta Ry. Co. is now making surveys for its proposed line to Oakland, Sidney and Augusta, 18 miles. Right-of-way is partly donated. A. F. Gerald, Fairfield, Me., is Pres.; J. A. Jones, Lewiston, Me.

FISHERS ISLAND, N. Y.—Frank E. Hine, Ch. Engr. of the Fishers Island R. R. Co. at Fishers Island, informs us that original surveys have been made and right-of-way obtained for this company's line from Fort Wright to Munndawket Wharf. Capital has been secured. No contracts have been awarded yet. Walter Ferguson, of Stamford, Conn., is Pres. This company was incorporated recently in New York state with $12,000 capital.

MYERSVILLE, MD.—We are officially advised by H. M. Warrenfeltz, Pres. of the Catoctin & Pen Mar Ry. Co., Wolfsville, Md., that the route for this line has been surveyed, but that no further steps have been taken. It is desired to secure capital for construction. The line will run from Myersville through Ellerton, Wolfsville and Foxville to Pen Mar.

FREDERICK, MD.—Charles C. Waters, Secy. of the Washington, Frederick & Gettysburg Ry. Co., Frederick, informs us that contracts for construction will be let probably in April or May. Surveys are made and right-of-way secured for greater portion of the distance between Frederick and Thurmont. Capital is partly secured. D. Columbus Kemp, Frederick, is Pres. C. D. Eldredge is Ch. Engr., Myersville, Md.

CORSICANA, TEX.—We are officially advised that survey work is progressing on line of railway to be built by the Central Texas Traction Co. It will extend from Corsicana to Palestine, 74 miles, via Mildred, Eureka, Stewards Mill, Fairfield and Tennessee Colony. Company is not yet ready to let contracts. H. E. Terry is Ch. Engr., and J. V. Watkins is Gen. Mgr., both at Corsicana.

CHICKASHA, IND. T.—E. E. Colby, Ch. Engr., of the City Ry. Co., writes us that surveys have been made and right-of-way secured for its line. It will cover eight miles of city streets. Capital is all secured or arranged. Company is in the market for overhead wire and banding for return circuit, also power plant. M. B. Louthan is Pres., at Chickasha.

KLAMATH FALLS, ORE.—We are officially advised that the Klamath Canal Co. will let contracts probably about July 1st for building its proposed electric railway line. It will be five miles long from Klamath Falls to North Klamath Falls. C. N. Hawkins is Pres., and W. K. Brown is Ch. Engr., both at Hollister, Cal. Entire right-of-way has been obtained and surveys partly made. Capital is secured.

BOISE, IDAHO.—Victor M. Weil, Pres. of the Boise-Thunder Mountain & Big Creek Ry., Boston, Mass., informs us that contracts will be let in May or June for first 40 miles of proposed line. It is to be about 176 miles long, extending from Boise to Roosevelt, Idaho. I. A. Bullard is Ch. Engr., Boston. Surveys are made and most of right-of-way is secured. $600,000 is already underwritten for its construction. The company was incorporated recently in Boise with $10,000,000 capital. The incorporators named were: Nathan W. Holland, Wolfboro, N. H.; Julius B. Stark, Haverhill, Mass.; Victor M. Weil, Hyde Park, Mass.; Horton A. Hazard, Rockford, Ill.; Edward E. Varians, Newburyport, Mass.; Joseph Stark, Lodea Camba, Bolivia; Samuel W. Thackery, Alden, Pa.; John Kopera, Natrona, Pa.; John Graham, South Manchester, Conn.; and Arthur Halle, G. W. Fletcher, and R. H. Johnson, of New York, N. Y.

## LIGHT AND POWER PLANTS.

***The names of parties awarded contracts are printed in capital letters.***

EASTPORT, ME.—It is said that the Eastport Electric Light Co. will spend about $10,000 for improvements in the near future. L. G. Vose is Supt.

NEWPORT, R. I.—We are officially informed that plans and specifications are being prepared for an electric lighting system for the U. S. naval station at Bradford. R. E. Backenhaus, C. E., U. S. Navy, is in charge.

NEW YORK, N. Y.—Bids are asked until 3 p. m., March 14, for the installation of electrical work in the court-house on East 57th St. John F. Ahearn, Boro. Pres.

NEW YORK, N. Y.—We are officially advised that bids are asked by T. D. Rhodes, Pres. of the City & County Contract Co., 30 Broad St., New York, until March 24, noon, for a power plant. The City & County Contract Co., a corporation of the state of New York, having undertaken to build and equip the New York, Westchester & Boston Railway in accordance with the plans furnished by the Chief Engineer of this railway, is now prepared to let contracts for the power plant covering the construction, delivery, erection and starting in actual operation of the following component parts of the plant, i. e., three steam turbo-alternators with their dependent auxiliaries; 24 water tube boilers with superheaters and their parts; three open exhaust feed water heaters; six horizontal outside packed plunger boiler feed pumps; three surface condensers; 24 mechanical stokers; one 60-ton electric traveling crane. Plans, specifications and all additional information can be obtained at the office of Wm. A. Pratt, Ch. Engr., New York, Westchester & Boston Ry. Co., 30 Broad St., New York City, or at the office of L. B. Stillwell, Consult. Elec. Engr., 100 Broadway, New York City, or Sargent-Lundy Co., Consult. Mech. Engrs., Railway Exchange Bldg., Chicago, Ill.

TICONDEROGA, N. Y.—The Ticonderoga Electric Light & Power Co. is about to make extensive improvements in its lighting plant and will also build a new power plant. B. J. Spearman is Ch. Engr.

WEST POINT, N. Y.—Bids are asked until noon, March 17, for the erection of a power house, excepting the steel construction. Maj. John M. Carson, Jr., Q. M.

BRANCHVILLE, N. J.—It is said that the Branchville Electric Power, Water & Lighting Co. will spend $15,000 on improvements. C. H. Chrisman is Mgr.

SOUTH AMBOY, N. J.—It is reported that the Public Service Corporation has secured ground on Broadway and will shortly build a large power house. E. H. Stevens is Gen. Supt., at Newark, N. J.

MEADVILLE, PA.—A bond issue of $58,000 has been voted for general improvements. The money will be expended in improving the light plant, sewers and paving. H. S. Robinson is City Clk.

SCRANTON, PA.—Contracts have been awarded to the ALLIS-CHALMERS CO., of Milwaukee, for installing engines and generators with a capacity of 2,000 HP. for the new power house of the Lackawanna Light Co. The cost will be about $100,000.

FLORENCE, S. C.—Bids for the construction of a power plant for the Florence Light & Power Co. will probably be asked about April 1. Estimated cost is $150,000. Ladshaw & Ladshaw, Spartanburg, S. C., are Engrs.

CORINTH, MISS.—The Alcorn Electric Light Co. has been organized here and will erect new building and install new machinery. P. T. Jones is Pres.

NEW ORLEANS, LA.—Bids are asked until 11 a. m., March 31, by Bureau of Yards and Docks, Navy Dept., Washington, D. C., for constructing a power house and chimney, as noted in issue of Feb. 8. Specifications are on file at office of Engineering News, New York.

MEMPHIS, TENN.—It [illegible] Memphis Street Railway [illegible] sive improvements, [illegible] tion of a $200,000 brick [illegible] 160 ft., on Poston Ave. [illegible] will be installed.

HOPKINSVILLE, KY.—[illegible] acquired the franchise [illegible] Hopkinsville Gas & El[illegible] spend about $25,000 in [illegible] work will begin in a very [illegible]

COLUMBUS, O.—An o[illegible] prepared covering a bond [illegible] to be used in improving [illegible] city electric light plant. [illegible] Supt.

MANSFIELD, O.—It is [illegible] Pennsylvania R. R. Co. [illegible] electric lighting establish[illegible] furnish light for the yards [illegible] other buildings in the ea[illegible] for the passenger depot.

STEUBENVILLE, O.—[illegible] Power Co. has planned to [illegible] here so that power can be [illegible] ufacturing purposes. Hen[illegible] Engr.

LORAIN, O.—It is said [illegible] being prepared by the B[illegible] for the erection of a new [illegible] ing plant here. Several [illegible] dynamos are to be installed [illegible] and a 125-ft. chimney of [illegible] erected.

WARRENSVILLE, O.—Bids [illegible] March 18 by the Board of [illegible] Cleveland, for installing [illegible] power plant in the transfe[illegible] Cleveland Farm Colony. A[illegible]

NEWARK, O.—The Newark [illegible] & Power Co. has decided to [illegible] in installing a new power [illegible] Gillette is Pres.

MANISTEE, MICH.—The p[illegible] of William Douglas for permission [illegible] to dam the Manistee River near Sherman [illegible] been acted upon favorably by the Board [illegible] Supervisors of Waxford County. The dam will be about 45 ft. high and will raise the water level about 30 ft., with which head [illegible] HP. can be obtained. It is planned to install three turbo-generators of 1,000 HP. each.

PONTIAC, MICH.—Clinton River Power Co. will erect a power house at an estimated cost of $120,000, bids for which will be asked about April 10. H. von Schon is Engr.-in-Charge.

MASON, MICH.—J. Fred Lewis has been granted a franchise and will erect a $30,000 gas plant.

GRAND RAPIDS, MICH.—The Grand Rapids Gas Light Co. will install a water gas plant capable of generating 1,500,000 cu. ft. daily, and build a new holder and new structures to replace the present warehouse and meter shop. The buildings will be of brick and the total cost of all the improvements is given at $25,000.

LANSING, MICH.—It is reported that the Michigan Power Co. will construct a new power house, at a cost of $250,000. W. S. Schott, Chicago, Ill., Engr.

MENDOTA, ILL.—The McKinley syndicate has secured control of the local gas and electric plants and plans the expenditure of about $10,000 in improvements. Chas. F. Lathrop is Ch. Engr.

PEORIA, ILL.—Contracts have been let to the WESTINGHOUSE CO., of Pittsburg, for transformers, and to the GENERAL ELECTRIC CO., of Schenectady, N. Y., for rotary converters and exciters to be installed in the new power plant of the Central Illinois Traction Co.

MILWAUKEE, WIS.—The Pabst Brewing Co. is to expend $400,000 in the installation of an electrical system for running its entire plant.

GREEN BAY, WIS.—Albert M. Murphy, W. P. Wagner and others, of Green Bay, owners of the Green Bay Traction Co., are reported to have purchased the plant of the Green Bay Gas & Electric Co. It is reported that the two plants will be consolidated and $200,000 expended in improvements.

SHENANDOAH, IA.—The local electric light plant will be rebuilt at a cost of $25,000. Geo. F. Moore is Mgr.

DULUTH, MINN.—C. C. Cokefair, President of the Great Northern Development Co., returned recently from Minneapolis and confirmed the report that his company is about to establish a hydro-electric station on the Mississippi River at Otsego, 25 miles from Minneapolis, to develop 25,000 HP. for the industrial needs of the Twin Cities. The cost of the improvement will be between $3,000,000 and $4,000,000. Construction work will begin early this spring, and it is expected that the power will be available for transmission in one year.

CANON FALLS, MINN.—We are informed that bids will probably be asked until April 10 by the Canon River Electric Power Co. for the erection of a power plant. H. von Schon, Detroit, Mich., is Engr.-in-Charge. Noted in issue of Jan. 18.

TWO HARBORS, MINN.—Contract for the erection of an electric light and power plant for the Duluth & Iron Range R. R. has been let to the ERIE HEATING CO., Railway Exchange Bldg., Chicago. The cost will be about $60,000.

ALEXANDRIA, MINN.—A new lighting plant for the street lighting system is to be constructed. Councilman Frederberg is one of the committee in charge.

OSAGE CITY, KAN.—It is planned to spend $15,000 for improvements to the municipal electric light plant. G. Dawson is Ch. Engr.

LINTON, MO.—An issue of bonds for $100,000, to cover the cost of constructing a municipal electric lighting plant has been authorized.

HARRISBURG, MO.—The Harrisburg Electric Light & Power Co. has been incorporated by A. A. Boon, Thos. Fourney and others. The capital is $25,000.

KIRKSVILLE, MO.—The Kirksville Gas Co. will erect a large new gas plant here, according to reports.

LAWTON, OKLA.—Louis Bordenkircher, of Lawton, and Charles A. Bigelow have been granted a franchise to construct a natural gas plant.

BRAMAN, OKLA.—The Braman Gas and Development Co., capital stock $20,000, has been chartered by J. W. Bechtel, of Hunnewell, Kans., and others.

WATONGA, OKLA.—We are officially informed that contracts have been awarded the WESTINGHOUSE CO., Pittsburg, Pa.; MURRAY BROS. and the RIDGEWAY DYNAMO & ENGINEERING CO. for constructing the electric light plant here. M. A. Earl, Mgr. Ind. T., is Consult. Engr.

GUNNISON, COLO.—GEO. SETHMAN, of Denver, has been awarded the contract for constructing the city's new light and water plant, at $60,000. J. J. Hubbard is Ch. Engr.

IONE, ORE.—Council is preparing plans for the construction of a new electric lighting plant.

NEEDLES, CAL.—The Desert Power & Water Co. has been chartered, capital $1,000,000, to build an electric power and light plant at Needles for the purpose of furnishing the surrounding country and Needles with light and power. F. E. Monteverde is Pres. and Gen. Mgr.

DAYTON, NEV.—The Dayton Reduction Co. is preparing to build a large electric power plant to operate its various stamp mills. A new 100-stamp mill is also projected.

GODERICH, ONT.—A power plant to generate 2,000 HP. is to be built on the Maitland River, near this place. J. T. Goldthorpe is interested.

AMHERST, N. S.—The Maritime Coal Co. will build an electric power station here. Wm. Mitchell is Pres.

## BRIDGES.

*The names of parties awarded contracts are printed in capital letters.*

YARMOUTH, ME.—It is reported that the Portland & Brunswick St. Ry. Co., on its proposed extension to this place, is planning to build a steel bridge over the Royal River, 115 ft. long. John Stowell, Freeport, Me., is Ch. Engr.

BARNSTABLE, MASS.—Bids will be asked soon by the County Commissioners for building the proposed bridge over Bass River, according to reports. The bridge is to be 700 ft. long and cost $20,000. Alfred Crocker is Clk. County Comrs.

BOSTON, MASS.—The following bids were received March 5 by the Charles River Basin Comrs., 367 Boylston St., Boston, for constructing and erecting a Scherzer rolling lift bridge over the Charles River here: American Bridge Co., New York, N. Y., $40,800; Boston Bridge Works, Inc., Boston, Mass., $41,-562; Penn Bridge Co., Beaver Falls, Pa., $42,800; Pennsylvania Steel Co., Steelton, Pa., $48,666; Strobel Steel Construction Co., Chicago, Ill., $48,865; New England Structural Co., Boston, Mass., $52,800; New Jersey Bridge Co., New York, N. Y., $56,000.

SALEM, MASS.—The following bids were received Feb. 24 by County Commissioners for constructing substructure of bridge at Haverhill, Mass.: New Jersey Bridge Co., Fuller Bldg., New York, $65,431; Patrick McGovern, 6 Beacon St., Boston, $74,248; William L. Miller, 19 Milk St., Boston, $74,804; Holbrook, Cabot & Rollins, 6 Beacon St., Boston, $76,586; Lahey & Buswell, $80,464; John Cashman, West Quincy, Mass., $77,782; MILLER-COLLINS CO., 1133 Broadway, New York, $68,652 (awarded contract).

NEW YORK, N. Y.—The following bids were received by Louis F. Haffen, Boro. Pres., for widening bridge over New York & Harlem R. R., at 177th St.: Gallo & Petelli, 127 Mulberry St., $27,767; John Kenny, Jr., 29 Cortlandt St., $26,923; J. A. Haggerty, 1518 Washington Ave., $29,874; Kelly & Kelly, 39 East 42d St., $28,700; Cooper & Evans, 220 Broadway, $25,700.

SANDY HILL, N. Y.—The supervisors of Washington and Saratoga Counties have adopted plans for a concrete bridge at Sandy Hill over the Hudson River, consisting of 15 spans, each 66 ft. in length.

LONG ISLAND CITY, N. Y.—The Department of Bridges will advertise for bids soon for the construction of a retractible bridge over Dutch Kills Creek at Borden Ave. The span will be 50 ft. and $175,000 have been appropriated.

ATLANTIC CITY, N. J.—The West Jersey & Seashore Ry. has awarded contracts for the bridges across the Atlantic City Thoroughfare in connection with the electrical equipments of the West Jersey Railroad, to ARMSTRONG & LATTA and P. McMANUS, of Philadelphia. The former was awarded the contract for the piling and timber work across the Thoroughfare, 500 ft. in length, and the approach from the Thoroughfare to the Atlantic City Railroad crossing, 650 ft. long. The latter was awarded the contract for the excavation and masonry for the draw span pier.

CAMDEN, N. J.—The following bids were received Feb. 28 for constructing a Strauss trunnion bascule bridge over Cooper's Creek, at Federal St.: New Jersey Bridge Co., Fuller Bldg., New York, $85,000; Toledo & Massillon Bridge Co., Toledo, O., $87,900; Miller-Collins Co., 1133 Broadway, New York, $82,990; Eyre Construction Co., Arcade Bldg., Philadelphia, Pa., $92,000; United Construction Co., Albany, N. Y., $80,[illegible]; Owego Bridge Co., Owego, N. Y., $126,[illegible].

WILMINGTON, DEL.—The Levy Court has rejected all bids for the construction of a bridge over Appoquinimink River at Fenimore, and work will be readvertised.

BALTIMORE, MD.—The Pennsylvania R. R. is said to be considering the construction of a bridge over the Patapsco River here to be about 1,800 ft. long and 150 ft. high. W. H. Brown is Ch. Engr., at Philadelphia.

NORFOLK, VA.—W. T. Brooke, City Engr., has been asked to prepare plans for a bridge from the foot of East Main St., here, to the foot of Main St., Berkley.

MILTON, N. C.—It is reported that the bridge committee has awarded the contract for the steel bridge across Dan River to the CANTON BRIDGE CO., of Canton, O.

ATLANTA, GA.—The contract for constructing the Washington St. viaduct has been awarded to the OLIVER CO., Knoxville, Tenn., at $70,760, for Sec. 1, and $63,960 for Sec. 2.

FLORENCE, ALA.—It is reported that the PHOENIX BRIDGE CO., Phoenixville, Pa., has been awarded contract for the construction of a bridge for the Southern Railway, to be 62 ft. long, deck riveted, providing for highway on lower deck.

CULLMAN, ALA.—The Board of Revenue is considering the construction of a 400-ft. steel bridge about one mile east of this town.

BATON ROUGE, LA.—It is reported that the Southern Pacific Railway Co. will erect several drawbridges on its line near here.

MONROE, LA.—It is stated that the Vicksburg, Shreveport & Pacific Railroad Co. will build a new drawbridge across Ouachita River here. E. A. Ford, Vicksburg, Miss., is Supt.

CARTHAGE, TENN.—The W. T. YOUNG BRIDGE CO., Nashville, Tenn., has been awarded the contract for constructing a steel bridge, 1,100 ft. in length, over the Cumberland River here, at $51,490.

STRAW PLAINS, TENN.—The Southern Railway, according to reports, intends to build a steel bridge over the Holston River, here. D. W. Lum, Washington, D. C., is Ch. Engr.

SPRINGFIELD, O.—The commissioners of Greene and Clark Counties are contemplating the construction of a bridge over Mad River, near Osborn, to be built of concrete and cost $12,500.

DAYTON, O.—Robert E. Kleine, City Engr., has been instructed by council to prepare plans and specifications for a new concrete bridge to be erected between the central part of this city and Dayton View.

BRYAN, O.—It is reported that bids are asked by R. H. Weaver, County Audr., until 11 a. m., March 23, for the construction of several bridges, both substructures and superstructures.

CRAWFORDSVILLE, IND.—This county will receive estimates about April 1 for seven concrete and steel bridges. Cost, $12,000. J. A. Harding is Engr.; B. F. Carman is County Audr.

ST. PAUL, IND.—The Indianapolis & Cincinnati Traction Co. has awarded a contract to HARMON & HARMON, North Vernon, Ind., for the construction of a concrete bridge over Flat Rock, near here.

URBANA, ILL.—The ILLINOIS STEEL & BRIDGE CO., Jacksonville, has been awarded the contract for constructing an iron bridge on South Market St.

PEKIN, ILL.—The contract for constructing a bridge in Malone Township has been awarded to the DECATUR BRIDGE CO., Decatur, Ill.

HEYWORTH, ILL.—Plans have been prepared for a 75-ft. deck-girder iron bridge with concrete abutments to be erected over Kickapoo Creek, north of this place, for the Illinois Traction System. L. E. Fischer is Gen. Mgr., at Danville, Ill.

specifications for the construction of an addition to its plant. Two stories, 57 × 109 ft.

It is reported that the Dix Mfg. Co. has purchased a site, and will erect a 2-story factory building, 65 × 165 ft.

WASHINGTON, D. C.—Ernest Bergdorf, 410 Eighth St., N. W., will have plans prepared for a 5-story, brick, stone and steel, fireproof carriage repository, 100 × 25 ft., to be erected at the above address.

CONCORD, N. C.—Stuart W. Cramer, Charlotte, N. C., is reported to be Engr.-in-Charge of construction of an addition to the plant of the Gibson Mfg. Co. Contract for machinery has been let and contract for building will be let shortly.

HENDERSON, N. C.—The Harriett Cotton Mills are considering the addition of 5,000 spindles to their present plant, it is reported.

ROCKINGHAM, N. C.—Robert L. Steele and associates will organize a company to erect a cotton mill here, with an equipment of 10,000 spindles and 300 looms.

CHARLOTTE, N. C.—The Harris Mfg. Co. has been incorporated, with a capital of $100,000, and construction of a plant for manufacturing yarns will be started shortly. David Clark is Treas. and Mgr.

GREENVILLE, S. C.—Lockwood, Greene & Co., 93 Federal St., Boston, Mass., are reported to be Engrs.-in-Charge of improvements to be made to the plant of the McGee Mfg. Co.

PENDLETON, S. C.—The Pendleton Cotton Mills are reported to have been reorganized and will increase the capital stock for purpose of adding machinery, probably to increase present equipment from 3,136 to 10,000 spindles. The plant manufactures yarns. D. P. McBrayer, of Anderson, S. C., is Pres.

WAYCROSS, GA.—The PENN BRIDGE CO., Beaver Falls, Pa., has been awarded contract for grading, sewerage, water supply, brick and steel buildings and all other work in connection with constructing new locomotive works and car shops at Waycross, Ga., for the Atlantic Coast Line, except machinery and equipment. Plant will include a roundhouse, oil house, storehouse, machine and erecting shop, blacksmith shop, coach shop, paint shop, planing mill, foundry, pattern storehouse, dry kiln and frame freight car repair shop. Proposals submitted were for plant complete, except machinery and equipment. Contract is about $400,000. R. E. Smith, Gen. Supt. Motive Power, Wilmington, N. C. (Advertised in Engineering News, from Jan. 4 to Jan. 18.)

TOWNSEND, TENN.—The mills of the Townsend Co., recently destroyed by fire to the extent of $60,000, will be rebuilt at once.

CHATTANOOGA, TENN.—The Machove Mills Co., capital $1,500,000, has been organized to erect a cotton mill near here. Lavins M. Thomas, Battle McLester, Charles W. Rankin, J. H. Thomas and T. T. Rankin are incorporators.

CHATTANOOGA, TENN.—O. D. Cornell, E. D. Bixby and C. E. Burrell, paper manufacturers, Kalamazoo, Mich., are reported to have purchased a tract of land here for the purpose of erecting a paper plant. The water of the river will be used together with pulp from rags and soft woods. A filtering plant will be erected for the purpose of filtering the water. The mill will cost about $150,000.

LOUISVILLE, KY.—The Central Concrete & Construction Co., capital $25,000, has been chartered here, according to reports, to erect a plant for the manufacture of concrete construction blocks. Robert C. Morris is Pres., and C. J. Meddis, Secy.

COLUMBUS, O.—C. J. CLOSE has been awarded the contract for erecting the new grinding building for the Jeffrey Mfg. Co., it is reported. Cost, about $10,000.

YOUNGSTOWN, O.—It is reported that the Shenango Iron & Steel Co. is to spend $500,000 in the erection of a blast furnace and additional puddle mills.

PORTSMOUTH, O.—The Irving Drew Co. contemplates the expenditure of about $50,000 for additions to its present shoe manufacturing plant.

RICHMOND, IND.—The Practical Mfg. Co. will erect a large plant in this city to manufacture boilers and boiler supplies. E. H. Erk, E. O. Silbey and R. H. Fetta are directors.

FORT WAYNE, IND.—The Fort Wayne Brick & Tile Co. will receive bids for the construction of a brick and tile factory here.

PLAINWELL, MICH.—The Michigan Paper Co., of Plainwell, has awarded the contract for the erection of a paper mill to HAUSER, OWEN & AMES, of Grand Rapids, Mich., at about $300,000. The contract calls for everything except the purchase and installation of the machinery. Construction will be brick with concrete foundations.

HAWTHORNE, ILL.—The Western Electric Co., 259 South Clinton St., Chicago, is about to let contracts for a manufacturing building at Hawthorne, according to reports. It will be five stories, 275 × 375 ft., built of brick and steel, with composition roof. $700,000 is estimated cost.

CHICAGO, ILL.—WILLIAM M. CRILLY, 167 Dearborn St., is reported to have been awarded general contract for a car shop building, to be erected at 78th St. and Wentworth Ave. for the Chicago City Railway Co. To be 1-story, 290 × 257 ft., built of brick, mill and fireproof construction. Estimated cost, $100,000.

CHICAGO, ILL.—L. G. Hallberg, Arch., 84 La Salle St., is reported to have let the masonry and carpentry contracts to H. J. ERICKSON, 84 La Salle St., for a factory to be built at Crossbey and Hobby Sts., for the Willer Co. It will be 5-story, 75 × 126 ft., of concrete construction, and cost about $100,000.

## READERS' WANTS FOR THOSE IN THE MARKET

The readers of ENGINEERING NEWS are constantly in the market for great quantities of machinery, tools and general supplies. While our thousand advertisers are usually able to furnish the material desired, yet there are many things wanted by our readers that are not advertised, although connected with engineering and contracting directly or indirectly. This department (R-W) is for this class of inquiries, and we urge our readers to keep us informed. Enclose five cents in stamps and we write to a number of leading manufacturers without further cost. When writing to our advertisers, who are the leaders in their respective lines, **mention Engineering News.** Have you a copy of our Buyers' Guide? **Engineering News Can Help Buyers.**

SCRAP MICA.—Middletown, Conn.—C. H. Blatchley writes us that he wants names of firms handling scrap mica, and also information regarding the value and the use of the same.

SAND TESTING MACHINES.—Cape May, N. J.—The Cape May Real Estate Co., Chas. W. Tarr, Res. Engr., writes us that he wants prices on apparatus for testing sands and gravels mechanically.

CEMENT BUILDING BLOCK MACHINES.—Miami, Fla.—We are informed that H. L. Whitney, of Beverly, Mass., and Jas. Meek, of Miami, Fla., are in the market for the above, including plant equipment.

SIDEWALK TOOLS, BRASS PLATES FOR CEMENT WALKS, ETC.—Schenectady, N. Y.—V. C. Scott & Co., 114 South Centre St., write us that they want the addresses of makers of tools for making cement sidewalks, and also of makers of brass plates to be imbedded in cement walks.

POWDER, DYNAMITE, ETC.—Mexico.—C. K. Cole, Bocogna, Chih., Mex., writes us that he wants the addresses of makers of black powder, dynamite, caps, fuse, etc., delivered in carload lots at El Paso, Tex.

MACHINES FOR TREATING NUTS, OIL, ETC.—Mexico City, Mex.—W. D. Hansen, Ramon Guzman 1028, c/o Walsh, Mexico City, writes us that he is in the market for a machine for treating palm nuts, crackers, oil press, etc.

BRICK SIDEWALKS.—Ridgway, Pa.—Information is wanted regarding garden sidewalks, built of brick with a cinder foundation, and resting on a cushion of sand, and a terrace walk adjoining the garden, which widens out and forms the floor of a pavilion, is intended to be laid on a concrete foundation. Correspondence is wanted with firms that do this class of work, etc. Address A. S. De Forest, Landscape Arch., 223 Sibley Bldg., Rochester, N. Y.

MILWAUKEE, WIS.—The J. A. & P. E. Dutcher Co. has let to MEREDITH BROS. a contract to build a 12-ton open hearth steel furnace. This work together with new buildings made necessary by the extension will cost from $50,000 to $75,000, according to reports.

SOUTH OMAHA, NEB.—It is stated that $1,000,000 will be expended by the National Packing Co. in remodeling its packing plant here.

TULSA, IND. T.—The National Drill & Mfg. Co. is reported to be about to concentrate its plants now located at Barberton, O., and Coffeyville, Kan., including headquarters, in Tulsa. The local plant has been in operation for about a year and the concentration of all branches here will necessitate enlarging it to three times the present capacity and will represent when running full capacity an investment of $100,000.

NORTH YAKIMA, WASH.—C. B. Bussell and Andrew Weber, of Seattle, are contemplating building a cannery here, to cost about $25,000.

SEATTLE, WASH.—C. E. Farnsworth, Pres. of the Union Machinery & Supply Co., has purchased the Challoner-Perkins plant in this city, and has arranged for building a large plant at cost of $100,000, to be in operation within three months.

## MISCELLANEOUS CONTRACTS.

*The names of parties awarded contracts are printed in capital letters.*

CONCRETE BLOCK MACHINERY.—Bristol, R. I.—L. H. Callan, general contractor, 208 Franklin St., informs us that he is in the market for concrete block machinery.

DITCH.—Centerville, Ia.—Bids are asked until March 19 by R. J. Baker, County Audr., for constructing a ditch in Drainage Dist. No. 1, requiring 217,199 cu. yds. Probable cost, $22,000.

DITCH.—Muscatine, Ia.—Bids are asked until 9 a. m., April 2, for the construction of a ditch in Drainage Dist. No. 2, involving the excavation of about 63,500 cu. yds. A. S. Lawrence, County Audr.

BREAKWATER.—Cleveland, O.—Specifications are on file at office of Engineering News, New York, for the construction of a breakwater at Conneaut Harbor, O. Bids are asked until March 16, as noted on March 1.

DRAIN.—Knoxville, Ia.—Bids will be received until March 28 by the Board County Supervisors for constructing an open drain in Drainage Dist. No 1, Swan Township, requiring 41,000 cu. yds. Walter Bane, County Audr.

DITCH, Albert Lea, Minn.—The contract for constructing the Nelson ditch in Hayward was awarded by the County Auditor to CALLAHAN & CO., Omaha, Neb., at 11¾ cts. per cu. ft. of earth removed, the total amounting to $25,058.

DRAIN.—Eldora, Ia.—We are officially advised that bids are asked until April 2, 1 p. m., for construction of a drain over three miles long. No bids were received in response to call for bids on Feb. 6. Jay S. Newcomer is County Audr.

DREDGING.—Washington, D. C.—Bids will be received until April 4 by Capt. Spencer Crosby, Corps. Engrs., U. S. A., Washington, for dredging in Breton Bay, Md., and in Mattaponi and Pamunkey Rivers and Accoquan and Carters Creeks, Va.

BULKHEADS, ETC.—Baltimore, Md.—It is reported that bids are asked until March 9 by the Board of Awards, E. Clay Timanus, Pres., for constructing stone and timber bulkheads in the Back Basin; also for dredging. M. H. Hutton is Harbor Engr.

LOCK GATES.—Pittsburg, Pa.—Bids are asked until noon, March 30, for building five pairs of lock gates and anchorages. Major Wm. L. Sibert, Engrs., as advertised in Engineering News. Specifications and bidding sheet are on file at office of Engineering News, New York.

DITCH, RESERVOIR.—Lewiston, Idaho.—Specifications and bidding sheet for ditch, etc., to be built by the Wahs-Lewiston Land & Water Co., are one file at office of Engineering News, New York. Bids are asked until March 31, as advertised in Engineering News from March 1 to March 29.

CEMENT.—Glendive, Mont.—Bids are asked until 10 a. m., April 12, for furnishing from 8,000 to 12,500 bbls. of Portland cement, f. o. b. cars at bidder's mill. Specifications are on file at office of Engineering News, New York, for this material. E. A. Hitchcock, Secy., Dept. Interior, Washington, D. C.

FIRE ALARM SYSTEM.—Norfolk, Va.—The Bureau of Yards and Docks, Navy Dept., Washington, has awarded to the GAMEWELL FIRE ALARM TELEGRAPH CO., 19 Barclay St., New York, contract for the fire alarm system at the Norfolk Navy Yard at $7,996. Bids were opened Feb. 10.

DOCKS.—Suffolk, Va.—Virginia & Carolina Coast R. R.—The JARRETT CONSTRUCTION CO., Springfield, Mo., has been awarded the contract for constructing all docks in connection with the construction of the Virginia & Carolina Coast R. R., to be constructed from Suffolk, Va., southerly for 123 miles.

RAILROAD TRACK SCALE.—Portsmouth, N. H.—Bids are asked until 11 a. m., April 7 for furnishing a 100-ton railroad scale at the navy yard, Portsmouth, N. H. Mordecai T. Endicott, Ch. Bureau Yards and Docks, Navy Dept., Washington, D. C. Specifications for this work are on file at office of Engineering News, New York.

CANAL.—Oregon.—We are officially informed by J. W. Piercy, Secy. of the Gold Hill Canal Co., 825 Law Bldg., Indianapolis, Ind., that estimated cost of proposed canal, for which bids are advertised in Engineering News until March 15, will be about $350,000, based on hand labor. There will be about 1,136,000 cu. yds. of excavation. Fully noted on Feb. 8.

TRAP ROCK, ETC.—Brooklyn, N. Y.—Bids are asked until 11 a. m., March 14 by Bird S. Coler, Boro. Pres., for furnishing and delivering about 21,073 cu. yds. broken trap rock, 8,359 cu. yds. trap screenings, 6,000 lin. ft. bluestone curb, 30,000 sq. ft. bluestone flagstone, 150,000 lbs. paving pitch, 1,000 bbls. Portland cement, 6,500 cu. yds. sand, etc.

MAIN CANAL.—Boise, Idaho.—Bids are asked until 2 p. m., April 16, for the construction of about 20 miles of main canal, involving the excavation of about 975,000 cu. yds. earth and 10,000 cu. yds. solid rock in connection with the Payette-Boise Project, Idaho. E. A. Hitchcock, Secy. Dept. Interior, Washington, D. C. (Advertised, Engineering News.)

CEMENT.—Iola, Kan.—The Secretary of the Interior, on Feb. 27, awarded contract to the McPHEE & McGINNITY CO., of Denver, Colo., for 30,000 bbls., more or less, of Portland cement for the Uncompahgre Valley Project, Colorado. The bid of the contractors is $1.43 per bbl. f. o. b. cars at Iola, Kan. The formal contract and bond for execution have been forwarded to the contractors for signature.

DREDGING.—Boston, Mass. — Bids are asked until 2 p. m., March 15, for dredging a channel about 7,800 ft. long, 50 ft. wide, and six ft. deep at mean low water in Annisquam River, between Gloucester Harbor and Wolf Hill, with about 195 ft. of seawall and riprap at its southerly end. Woodward Emery, George E. Smith and Henry J. Skeffington, are Harbor and Land Comrs. (Advertised, Engineering News.)

DAM.—Carlsbad, N. Mex.—Bids are asked until 2 p. m., April 12, for construction of a dam in Pecos River, involving the placing of 75,000 cu. yds. of earth; 40,000 cu. yds. of rock fill; 12,000 lin. ft. of steel sheet piling; 3,300 cu. yds. of rubble concrete and about 219,000 lbs. of steel, in connection with the Carlsbad Project, New Mexico. E. A. Hitchcock, Secy. Dept. Interior, Washington, D. C. (Advertised, Engineering News.)

DREDGING.—Galveston, Tex.—Bids for the filling of the Fort Crockett reservation from 45th to 53d Sts., and the dredging of Div. 3 of the Buffalo Bayou, were opened Feb. 23 by Capt. Edgar Jadwin, U. S. Engr. The North American Dredging Co., of San Francisco, was the lowest bidder on the Fort Crockett project, submitting a price of 22 99-100 cts. per cu. yd, or $286,225. The lowest bid on the Buffalo Bayou project was 19 9-10 cts. per cu. yd., or $457,750. It was submitted by August Nelson, representing the Atlantic, Gulf and Pacific Co., of New York.

MAIN CANAL.—Glendive, Mont.—Bids are asked until 10 a. m., April 12, for the construction of structures on the main canal and laterals, Lower Yellowstone Project, Montana and North Dakota, involving approximately 150,000 cu. yds. of excavation; 7,000 cu. yds. of concrete; 7,0[illegible] 550,000 lbs. of square [illegible] B. M. of sheet piles; 4[illegible] lumber, and 8,000 lin. [illegible] terra cotta pipe. Fran[illegible] Engr., Glendive. E. A. [illegible] Dept. Interior, Washin[illegible] tised, Engineering News.

BLASTING LEDGE.—P[illegible] Bids were received by th[illegible] and Docks, Navy Dept., [illegible] of quay wall, Navy Yard [illegible] on March 3: Johnston [illegible] Del., Item No. 2, $10.65 p[illegible] 3, $1.25 per cu. yd.; John [illegible] Hamilton St., Plattsburg, [illegible] $9.49 per cu. yd.; Item [illegible] cu. yd. R. G. Packard [illegible] New York, N. Y., Item No. [illegible] H. Gerrish, 247 Atlantic A[illegible] Item No. 1, $164,835; Item [illegible] cu. yd.; Item No. 3, 90 c[illegible] No. 4, $154,030.

SUPPLIES.—Washington [illegible] opened March 6 at the [illegible] and Accounts, Navy D[illegible] D. C., for miscellaneous [illegible] various navy yards. The [illegible] to engineers are as follows [illegible] bidder alone is given.) [illegible] cars, J. J. Shannon & Co., [illegible] two steam drop hammers [illegible] ning, Maxwell & Moore, N[illegible] two steam drop hammers [illegible] ning Maxwell & Moore, S[illegible] ming press, 4-in. stroke [illegible] Agency, Manchester, N. [illegible] forging machine, 4 in., Aja[illegible] land, O., $7,025; one head[illegible] forging machine, Ajax Mfg. [illegible] vertical milling machines, [illegible] New York, $1,000; two [illegible] 9 ins. × 14 ins., Garvin Mch[illegible]

TUNNEL.—Boston, Mass.—[illegible] ceived on March 6, at the [illegible] ton Transit Commission, [illegible] Boston, Mass., for const[illegible] Eight of the Washington St[illegible] as follows: Bruno, Salamone [illegible] 965; Cranford Company, Br[illegible] W. H. Keyes & Co., $389,78[illegible] D. Gore, $386,925; Metropol[illegible] $343,170; Hugh Nawn Cont[illegible] Chas. R. Gow Co., $321,205; [illegible] $317,747; Seeley, Taylor Co. [illegible] Patrick McGovern, $310,267; J. [illegible] Const. Co., 19 Worthington St., Roxbury, Mass., $297,641. All contracts are local firms unless otherwise noted. Steel: Eastern Bridge and Structural Co., $33,435; Belmont Iron Works, Pennsylvania, $32,650. L. P. Shoemaker & Co., Pennsylvania, $30,618; W. C. Clark & Co., Boston, $30,[illegible] Berlin Const. Co., Berlin, Conn., $30,150. American Bridge Co., Boston, $29,880; New England Structural Co., Boston, $28,[illegible] Boston Bridge Works, 47 Winter St., Boston, $28,102.

## FOREIGN CONTRACTS.

(To insure prompt attention, letters upon consular business should be addressed to the American Consul at ——. Such letters are opened and attended to by the person who happens to be in charge of the office. If addressed to the consul by name they are forwarded to him unopened if he should be absent, and a delay thus intervenes; if he should in the meantime have gone out of office they may wholly escape attention.)

ELECTRIC LIGHTING PLANT.—Roumania.—Bids will be invited soon for the installation of an electric lighting system at Giurgevo, a river port 40 miles south of Bucharest. Est. cost, $190,000.

ELECTRIC RAILWAYS.—Italy.—The municipal authorities of Milan will construct and operate two electric railway lines in Milan. The municipality of Mestre also will build and operate a street railway line.

CANAL.—Bulgaria.—It is reported that bids will be received soon by the Minister of War, at Sofia, Bulgaria, for the construction of a canal between Devna Lake and Varna, a seaport on the Black Sea. Est. cost, $250,000.

HARBOR IMPROVEMENTS.—Japan.—It is probable that large quantities of cement will be required if the government decides to improve its ports and harbors. Huntington Wilson is Secy to U. S. Legation, at Tokyo.

ELECTRIC RAILWAY.—Argentine Republic.—The city of La Plata has granted a concession to Messrs. Gandulfo & Co. for an electric tramway from Barracas bridge to La Plata and the docks, passing through Guilmes, Florencio Varela and Villa Elisa.

WATER SUPPLY.—Aberdeen, Scotland.—A new source of water supply for this city, at an estimated cost of £825,000 ($4,068,000), is under consideration. The River Avon probably will be selected as the source. William Dyack is Burgh Surveyor and Water Engr.

RAILWAY.—China.—The "North China Herald" on Jan. 12 announced that the Canton Board of Commerce and the Viceroy of Canton have approved plan to build a railway between Nanhsiung and Canton. Julius G. Lay is U. S. Consul-General at Canton.

TELEGRAPH LINES.—Paraguay.—The government has decreased the inversion of $400,000 in monthly quotas of $50,000 for repairing the North and South telegraph lines, and for the acquisition of instruments. Edward C. O'Brien is U. S. Envoy, at Montevideo, Uruguay.

RAILWAY.—Argentine Republic.—A commission, with Jórgé Casaffou[illegible] of Buenos Aires, as Pres., has been authorized by the government to make surveys for a railway from a convenient point in the Valle de Lerma to Huitiquina or some other point near the Chilian frontier.

RAILWAY EXTENSIONS.—Argentine Republic.—It is announced that the government has decided on the construction of railway lines to various points which will form part of the state railway system. Adolfo F. Orma is Minister of Public Works (Ministro de Obras Publicas), at Buenos Aires. Charles D. White is Secy. to U. S. Legation, at Buenos Aires.

ELECTRIC PLANT.—Italy.—The Bulletin issued by the Chamber of Commerce states that "a hydro-electric installation is planned at a cost of about $3,500,000, for the production of 50,000 HP., to be utilized in the Milan district; in addition, the water derived will serve for irrigation purposes.

RAILWAYS.—Spain.—The Board of the Paris, Lyons & Mediterranean Ry. Co. has authorized the establishment of a second line, (1) between Tarragona and Amplepins; (2) between Tarragona and Arbresie. Estimated cost, 3,064,450 francs. M. Berton is Engr.-in-Chief of construction, 88, rue St. Lazare, Paris.

RAILWAY.—Bolivia.—The Bolivian Government has provided the funds for the construction of a railway from Tupiza to Potosi, and as the negotiations are completed with reference to the section La Guiaca to Tupiza (extension of the Central North Railway) work will be at once commenced.

TELEGRAPH MATERIAL.—Peru. — The government will spend about $5,000 during the years 1906-1907 on the construction of a telegraph line to connect Puquio (Province of Lucannas) and Coracora (Province of Parinacochas) with Nazca (Department of Ica). Richard R. Neill is Secy. of U. S. Legation at Lima, Peru.

HIPPODROME.—London, England.—Frederic W. Thompson, of Thompson & Dundy, proprietors of the Hipprodome in New York City, has announced that this firm has obtained an option on a site on Oxford St., London, for a large hipprodrome in London. The office of Thompson & Dundy is at Sixth Ave. and 43d St., New York.

DRY-DOCK.—South Australia.—A company has been formed to construct a dry-dock at Port Adelaide. The proposed work will be constructed almost entirely of timber in preference to concrete. It is understood that the required capital has already been nearly subscribed. The secretary of the company is W. John Creswell, Waymouth St., Adelaide.

TELEGRAPH LINE.—Argentine Republic.—The La Plata Government has authorized the United River Plate Telephone Co. to extend its lines from General Pueyrredon to General Avarado, from Chascomus to Dolores, from Dolores to General Paz and Belgrano, from Bahia Blanca to Medanos, General Pueyrredon, Balcarce, Loberia and Necochea, a total of about 250 miles, to be completed within five years.

BRIDGES.—Argentine Republic.—The plans of the Southern Railway Co. for a swing bridge over the Riachuelo on the high level have received official approval.

The government has ordered the Ways of Communication Department to ask European and North American bridge constructing firms for bids on plans and estimates for the construction of a bridge, with a swing section, on the River Corrientes.

REFUSE DESTRUCTOR. — Transvaal. — Bids are asked by the municipality of Pretoria for the supply and erection of a refuse destructor capable of treating 60 tons daily. Particulars can be obtained from Mosenthal, Sons & Co., 72 Basinghall St., E. C. A copy of the general conditions and specification may be seen at the Commercial Intelligence Branch of the Board of Trade, 73 Basinghall St., E. C., London, England.

STEEL.—Japan.—The Philadelphia "Public Ledger" states that the Japanese Government has contracted with the AMERICAN BRIDGE CO., 42 Broadway, New York City, for 150,000 tons of fabricated steel, to be used in building railway bridges in Korea and Japan. "A greater part of this material will be turned out at the bridge company's Pencoyd and Ambridge plants, and several months will be required for its production."

PORT IMPROVEMENT WORKS.—Spain.—Bids were advertised to be received on March 6 by the Directorate General of Public Works, Madrid, for carrying out improvement works at the port of San Esteban de Pravia, at the estimated cost of 8,404,571 pesetas (about $1,500,000), in accordance with plans, etc., on view at the above-mentioned office and at the office of the Civil Governor of Oviedo. A deposit of 170,000 pesetas (about $32,000) was required to qualify any bid.

RAILWAY RAILS.—Turkey.—The administration of the Hedjaz Railway, Constantinople, it is reported, will let contract for 13,000 tons of steel rails. In connection with the building of this railway from Damascus to Mecca, the government intends to establish big engineering works, probably at Damascus. The road is now completed for a distance of 733 kilometers and surveyed to a point 950 kilometers from Damascus, more than half way to Mecca. R. Friedrich is Ch. Engr., at Constantinople.

RAILWAY.—Uruguay. — The government has made arrangements with the Uruguayan Central Ry. for construction of an extension to Centurion, on the Yaguaron River, with a branch line to Trienta y Tres. The proposed line will be from 250 to 300 miles in length and is to be completed in three years. Est. cost is $7,500,000, gold. Livesey, Son & Henderson, 14 South Place, London, E. C., England, are Consult. Engrs. F. Hudson, Montevideo, Uruguay, is Gen. Mgr. Edward C. O'Brien is U. S. Envoy at Montevideo.

TELEGRAPH WIRE.—Italy.—It is reported that an official order has been issued sanctioning the expenditure of 2,500,000 lire (about $500,000) by the Minister of Posts and Telegraphs on the erection of new telegraph lines and the improvement of existing lines between the following towns: Genoa and Messina, Naples and Turin, Bari and Florence, Reggio (Calabria) and Naples, Rome and Venice, Genoa and Milan, Florence and Milan, Milan and Venice. The expenditure is to be spread over a period of seven years; 300,000 lire (about $60,000) is to be spent in each of the years 1906-8 and 400,000 lire (about $80,000) in each of the years 1909-12.

RESERVOIR.—Spain.—Plans are invited for the construction of a reservoir on the left bank of the River Manzanares, between the Puente de los Franceses and the Puente de la Princesa, and for carrying out canalization works with a view to providing constantly the water necessary for the cleansing of the river, and the regularity of its current. Plans should be deposited at the "Ayuntamiento," Madrid, before April 15, to be examined by a committee of experts which will announce its decision within the term of two months. The contract for the execution of the works, for which a term of five years is allowed, will form the subject of a public call for bids; the author of the scheme selected being granted special rights when bidding.

GRAIN ELEVATORS.—Argentine Republic.—The government has granted a concession to Arnold J. Alexander, 121 Calle San Martin, and J. R. Davis, 447 Calle Belgrano, Buenos Aires, for the construction of grain elevators at 38 stations in the principal wheat-producing centers of the south. All the machinery will be allowed in duty free, and the concession also carries with it exoneration of taxation both national and provincial. It is said that with the approval of the Argentine Government this concession is to be transferred to a company which is to be registered in London with a capital of £500,000, for the purpose of erecting and running grain elevators in the Republic, and that Dr. Ezequiel Ramos Mexia, ex-Minister of Agriculture, has consented to be the president of the company's Local Board in this city. The other members are Messrs. Merian, Dates and F. C. Cook, of 312 Calle San Martin, Buenor Aires.

RAILWAY CONSTRUCTION.—Italy.—The Ministries of Public Works and Finance are engaged in drawing up the budget of expenditure for the Italian State Railways during the years 1906-1916. It is estimated that during that period it will be necessary to expend 500,000,000 lire (about $100,000,000) on doubling lines, enlarging stations and other construction works. Many of the principal stations will be enlarged or reconstructed, among other those at Milan, Rome, Naples, Bologna, Catania, Messina, Turin, Verona and Venice. A further sum of 100,000,000 lire (about $20,000,000) will be required for augmenting the existing rolling stock. Moreover, a further expenditure of some 400,000,000 lire (about $80,000,000) will be entailed during the next ten years, to cope with the probable increase of traffic during that period; bringing the total sum required up to about $200,000,000. The State Railways Administration is anxious to obtain a government loan of this amount.

RIVER LOCKS.—South Australia.—The decision recently arrived at by the South Australian Government to install immediately the first of a series of locks and weirs to insure the navigability of the River Murray during the dry season, opens up a large field for engineering enterprise. The River Murray and its tributaries, among which the most important is the River Darling, have a navigable course of over 2,000 miles, and form a highway of great importance into the interior of Australia during the nine months of the year in which the natural level of the rivers admits of navigation. To provide the necessary depth of water for navigation during the remaining portion of the year it is estimated that six locks will be sufficient to maintain navigability over the whole of this river system. The lowest of these, whose construction has just been authorized, will be situated near the bend of the river known as Overland Corner, about 170 miles from the river mouth. The preliminary work will be begun at once.

RAILWAYS.—Africa.—W. Stanley Hollis, American Consul at Lourenzo Marquez, Portuguese East Africa, in a report on the progress on certain railways now being built in Africa, states that "it would seem to be worth the while of American manufacturers to send expert engineers to Africa for the purpose of examining the territory that the railways are opening up and to secure contracts for railway equipment. Africa is entering upon a great industrial and commercial era." The Lobita Bay-Benguella Ry. probably will be extended eastward to connect with various South African railway systems, with a point of junction near Buluwayo. If the project is carried out a large quantity of railway structural material will be required. Col. Joaquin José Machado, at Lisbon, Portugal, is General Manager of the railway company. Sir Douglas Fox, 28 Victoria St., Westminster, N. W., London, is Consult. Engr., and Griffith & Co., 62 London Wall, London, E. C., are the contractors.

Consul Hollis also reports that good progress is being made on the construction of the Lourenco Marquez section of the Swazieland Railway line, which has been fully surveyed to the frontier, and will be 74 kilometers long when completed; 22 kilometers of earthwork have been completed, and on these some 17 or 18 kilometers of rails have been laid. The work so far has consisted principally of ordinary earth cutting and filling; but as the line gets away from the coast it runs into a mountainous country and crosss one large and a number of smaller rivers. A number of bridges of some size will have to be built and a great deal of rock cutting will have to be done. The plans also call for two tunnels, the larger of which will be about 2,500 ft. long. Construction is being carried on by the Lourenco Marquez-Transvaal Railroad departmentally; the rough work is being done by Kaffir laborers under the superintendence of Portuguese overseers. German rails are being used. All large contracts for rails, bridge materials and other essentials for use in the construction of this line must be made through the ministry for the navy and the colonies at Lisbon, Portugal, to which American manufacturers who may wish to sell such materials are referred.

## CIVIL SERVICE EXAMINATIONS

MECHANICAL AND TOPOGRAPHIC DRAFTSMAN.—St. Louis, Mo.—The U. S. Civil Service Commission announces an examination on March 28 to fill a vacancy in the position of draftsman, $125 per month, in the Engineer Department at Large, St. Louis, Mo. Form 1312.

SCIENTIFIC ASSISTANT.—Washington, D. C.—The U. S. Civil Service Commission will hold an examination on March 21 to fill vacancies in the positions of scientific assistant in soil management and in soil surveying, in the Bureau of Soils, Dept. of Agriculture. Form 1312.

## INDUSTRIAL NOTES.

THE C. H. WHEELER MFG. CO. is the new name of the C. H. Wheeler Condenser & Pump Co., of Philadelphia.

THE A. LIETZ CO., San Francisco, has removed its factory main office and show rooms to 632-634 Commercial St.

THE STANDARD TURPENTINE CO. is the new name of the Weed Distilling & Mfg. Co., of N. Y. Angus McKenzie, Pres.

CHERRY VALLEY IRON WORKS, West Middlesex, Pa., is installing a 15-ton, 46 ft. span Northern crane made by Northern Engineering Works, Detroit.

THE POWER & MINING MACHINERY CO., of Cudahy, Wis., has just completed the largest McCully gyratory rock-crusher ever built; it is classed as No. 11, and has a cappacity of some 2,000 tons per hour. The machine is for a crushing plant in New York State.

THE EMERSON STEAM PUMP CO., Alexandria, Va., reports that business during January was greater than the first five months of 1905. This company has just shipped an order of a full carload of the largest pumps they make to Houston, Tex., for irrigation purposes in that vicinity.

THE BUFFALO FORGE CO., Buffalo, N. Y., has furnished the North Star mine, near Nevada City and Grass Valley, with two 8-stage multiple turbine electric pumps, each suitable for a 1,400 ft. head, and each having a capacity of 300 gallons a minute. These pumps deriv from the plant of the Bays Counties Electric Power Co.

JOSEPH BRUNO, VINCENT SALOMONE AND FRANK PETTITI, for the past three years a part of the Boylston Construction Co. on its contract for building Section 10 of the Wachusett Reservoir, having completed said work, have resumed their former associations as Bruno, Salomone & Pettiti, with offices at 23 Court St., Boston, Mass.

THE COLLEGE OF CIVIL ENGINEERING, CORNELL UNIVERSITY, Ithaca, N. Y., requests catalogues of engineering instruments, machinery and supplies. It is intended to place them on file in a large case, accessible to students, who will be encouraged to make themselves acquainted with the types of the different makers.

THE LIMA LOCO. & MACHINE CO., Lima, O., reports the following: Duluth, Virginia & Rainy Lake R. R., Duluth, Minn., has placed an order for one 65-ton Shay locomotive; L. B. Walling, Victoria, Fla., has placed an order for one 15-ton Shay locomotive; Sumpter Lumber Co., Ala., has placed an order for one 37-ton Shay locomotive.

THE NEW CENTURY CONSTRUCTION CO., 1 Madison Ave., New York, has been incorporated with the special purpose of constructing fireproof residences in and around New York City. In this construction they use hollow-tile wall and partitions and the Kahn system of reinforced concrete floors. While largely employed in the Middle West for other purposes this method of constructing is new as applied to private dwellings. The officers of the company are: W. W. Knoles, President; H. T. Weeks, Managing Director and W. W. Knapp, C. E., Treasurer. The Board of Directors include Wm. B. Barnford, M. Am. Soc. C. E., and Mr. Felix Kahn, of the Trussed Concrete-Steel Co., of Detroit.

THE KANSAS CITY BOLT AND NUT CO., Kansas City, Mo., expects to put in a 16-in. 3-high train of rolls, with the usual heating furnaces, complement of cropping shears, etc., and to add a 2-story machine shop, of brick, 75 × 100 ft., and considerable machinery to the bolt and nut department. Most of the work of buying is under way or completed.

THE ELECTRIC CABLE CO., 42 Broadway, New York, has just received an order from the N. Y. & L. I. R. R. Co. for 15 miles of cable insulated with Voltax, new high potential insulating compound. This order follows within a week upon that of the Interborough Rapid Transit Co., which has recently ordered from the same company the same amount of material.

THE SPRAGUE ELECTRIC CO., New York, whose motors are extensively used for driving laundry machines, has recently taken an order from the City Steam Laundry, Yonkers, N. Y., for an equipment, comprising a generator, switchboard and six motors. The large laundry machines in the new Knickerbocker Hotel, New York, are to be driven by Sprague electric motors.

THE ALBERTA ENGINEERING & CONSTRUCTION CO., Edmonton, Alta., N. W. T., recently formed of the various engineering and contracting interests, wishes to take the agency for a brand of cement, and it desires to be placed in touch with makers. This company will soon be in the market for concrete mixers, gasoline engines, crushers, elevators, etc., as noted recently. R. R. Keely is Pres. and Mgr.

THE BLAW'S COLLAPSIBLE STEEL CENTERING CO., Pittsburg, reports that during the past three months it has leased centers in every state and territory throughout the union, and is sending considerable amount of shapes and sizes to foreign countries. Contractors report a saving of 33⅓% to 50% in labor. The number of feet leased during this period covers at least $250,000,000 worth of concrete sewer contracts, including railroad culvert construction in concrete.

THE B. F. STURTEVANT CO., of Boston, is furnishing for export to the Philippine Islands a complete drying apparatus for use in connection with one of the newly-invented rotary dryers for vegetable products. The Wanskuck Co., Providence, R. I., and the Miramichi Pulp & Paper Co., Chatham, N. B., have just placed orders with the B. F. Sturtevant Co. for the installation of standard economizers. In both power plants these economizers are to be installed in connection with Sturtevant induced draft apparatus.

THE BUFFALO FORGE CO., Buffalo, N. Y., is employed on heating and ventilating installations for railroad work, among others being these: Somerset, Ky., shops of the Queen & Crescent R. R.; boiler, tank and carpenter shops of the B. R. & P. R. R., at Dubois, Pa. Large ventilating fans and engines for the Erie R. R. for the Bergen tunnel. And the following roundhouses: Southern Ry., Monroe, Va., 18 stalls; A. T. & S. Fe Ry., Emporia, Kan., 32 stalls; Ills. Central R. R., Burnside, Ill., 23 stalls; M. K. & T. R. R., Parsons, Kan., 32 stalls.

THE INTERBOROUGH RAPID TRANSIT CO., New York, has placed an order with the Electric Cable Co., of New York, for 15 miles of cables insulated with Voltax, the new potential compound which has just been placed on the market. Recent tests of the material made by the Electrical Testing Laboratories of New York show that this material can withstand a voltage 100% greater than rubber insulation and has withstood high potential insulation, resistance and melting point tests that no other compound yet discovered has withstood. The costs of this material are about 20% less than rubber insulation.

## CONTRACT PRICES.

*The names of parties awarded contracts are printed in capital letters.*

*STEEL SHEDS.—New Orleans, La.—Tabulated bids received on Feb. 6 by the Board of Commissioners, Port of New Orleans, for construction and erection of steel work for any or all of seven steel sheds were as follows. J. F. Coleman, Hibernia Bank Bldg., is Engr. The bidders were: (a) BROWN-KETCHAM IRON WORKS, Indianapolis, Ind. (awarded contract for whole number); (b) same firm, prices on single sheds; (c) McClintic-Marshall Construction Co., prices on whole number or none; (d) same company, prices on single sheds; the following firms bid on single sheds: (e) Joliet Bridge Co.; (f) Champion Iron Works; (g) Bedell Structural Steel Co.; (h) Strobel Steel Construction Co.; (i) Penn Bridge Co.; (j) Milwaukee Bridge Co.; (k) Morava Construction Co.; the following companies submitted informal bids: American Bridge Co.; New Jersey Bridge Co.; Virginia Bridge & Iron Co.

Bids for Steel Sheds Opened Feb. 6, by the Board of Commissioners of the Port of New Orleans, La.

**WATER SYSTEM.—Manila, P. I.—We are officially advised by J. F. Case, Ch. Engr. of the Department of Sewer and Water-Works Construction at Manila, under date of Jan. 12, that the schedule of itemized bids received on Jan. 2 for the gravity water supply system were as follows. An outline of the project and list of bidders with grand totals of their bids were given on Jan. 11. (a) J. G. White & Co., 49 Exchange Pl., New York City; (b) MATSON, LORD, BELSER & COMPANY, San Francisco, Cal. (awarded contracts for Sections A and E); (c) ATLANTIC, GULF & PACIFIC CO., 13 Park Row, New York City (awarded contracts for Sections C and D); (d) Schaw-Batcher Co., Sacramento, Cal. (rejected); (e) D. W. Smith; (f) H. W. PEABODY & CO., San Francisco, Cal. (awarded contract for Section B):**

BIDS RECEIVED FOR GRAVITY WATER SUPPLY SYSTEM AT MANILA, P. I.

CONTRACT A.—Dam.

| | (a) | (b) | (c) | (d) | (e) |
|---|---|---|---|---|---|
| 1,000 cu. yds. earth excavation, Class A.. | $0.77 | $0.518 | $0.50 | $0.50 | $0.43 |

| 55,800 lin. ft. manufacturing, etc., 42-in. steel pipe | 3.56 | 3.82 | 3.75 | 3.00 |
| 450 lin. ft. furnishing, etc., 36-in. c.-i. pipe under Mariquina River..... | 24.50 | 46.62 | 20.00 | 16.00 |
| 1,000 lin. ft. furnishing and laying 6-in. waste pipe, No. 14 B. W. G..... | .65 | 3.37½ | .50 | 1.00 |
| 200 cu. yds. Portland cement concrete masonry 1:2½:5 | 9.30 | 13.75 | 20.00 | 10.00 |
| 150 cu. yds. Portland cement concrete masonry 1:4:10 | 6.68 | 8.80 | 10.00 | 10.00 |
| Hauling iron, etc., per ton..... | 40.00 | 48.47 | 40.00 | 20.00 |
| Total | $280,515 | $294,266 | $281,935 | $237,700 |

CONTRACT D.—Tunnel.

| | (a) | (b) | (c) | (d) | (e) |
|---|---|---|---|---|---|
| 1,050 cu. yds. earth excavation in open trench | $0.78 | $0.69 | $0.75 | $0.50 | $0.30 |
| 16,000 cu. yds. borrowed earth for embankment | .78 | .55 | .75 | .50 | .50 |
| 2,400 cu. yds. rock excavat'n in open trench | 4.35 | 1.24 | 2.00 | 2.00 | 1.70 |
| 17,500 cu. yds. tunnel excavation ..... | 6.10 | 6.10 | 6.70 | 6.50 | 5.90 |
| 3,500 cu. yds. concrete lining for tunnel .. | 12.35 | 10.00 | 6.00 | 12.00 | 14.50 |
| 37,500 sq. yds. plaster coat on unlined sections | .40 | .63 | .50 | .30 | .50 |
| 270 cu. yds. concrete masonry for chamberts, culverts, etc. | 12.35 | 9.00 | 20.00 | 12.00 | 12.00 |
| Total | $192,048 | $180,305 | $179,087 | $183,565 | $188,385 |

CONTRACT E.—Reservoir and Gatehouse.

| | (a) | (b) | (c) | (d) | (e) |
|---|---|---|---|---|---|
| 29,000 cu. yds. earth excavation ..... | $0.33 | $0.64 | $0.20 | $0.50 | $0.30 |
| 225,000 cu. yds. rock excavation ..... | .95 | .64 | .80¼ | .85 | .95 |
| 43,500 sq. yds. plaster coat for reservoir.. | .38 | .55 | .60 | .10 | .35 |
| 200 cu. yds. concrete masonry lining .. | 8.48 | 9.18 | 12.00 | 10.00 | 10.50 |
| 325 cu. yds. concrete masonry for parapet walls | 8.70 | 9.20 | 10.00 | 12.00 | 12.00 |
| 1,650 cu. yds. concrete masonry in gate chambers and core walls..... | 7.67 | 8.75 | 10.00 | 12.00 | 14.50 |
| 1 gate-house at reservoir, complete... | | | | | |
| 41 tons hauling, etc., iron and metal work in gatehouse and reservoir ... | 40.00 | 41.20 | 30.00 | 20.00 | 25.00 |
| Total | $280,689 | $222,478 | $270,017 | $260,120 | $284,625 |

## INDUSTRIAL NOTES.

THE QUINCY, MANCHESTER, SARGENT CO. has been incorporated and will take over the business of the Railway Appliances Co., including the business and plant of the latter company at Chicago Heights (formerly owned by the Q. & C. Co.), and also the business and plant of the Pedrick & Ayer Co., of Plainfield, N. J., manufacturing locomotive repair tools, electric and pneumatic hoists and cranes and pneumatic riveters. The company will also act as sole selling agent for the product of the Elastic Nut & Bolt Co., of Milwaukee, Wis. The offices of the new company are in the Old Colony Building, Chicago, and at 114 Liberty St., New York.

THE LIMA LOCOMOTIVE & MACHINE CO., Lima, O., reports as follows: Great Southern Lumber Co., Buffalo, placed an order with the Lima L. & M. Co. for six 65-ton Shay locomotives for use on its timber lands in Mississippi. Ozan Lumber Co., Prescott, Ark., has placed an order for one 37-ton Shay locomotive. F. A. Talley & Co., Keenan, Tex., has placed an order for one 23-ton Shay locomotive. Ellisville (Miss.) Lumber Co. has placed an order for two 14 × 18 mogul locomotives. Williamsburg Lumber Co., Ellisville, has placed an order for one 14 × 18 mogul locomotive. Wilmar (Ala.) Lumber Co. has placed an order for one 14 × 18 mogul locomotive.

THE INDEPENDENT PNEUMATIC TOOL CO., Chicago, advises that it has received a cable order from one of its customers in London, Eng., for 300 (Thor) piston air drills, reversible flue rolling, reaming, tapping and wood boring machines, and pneumatic hammers. The domestic business has grown to such an extent that the company is several months behind in its orders, the present capacity of its plant being entirely inadequate to meet the demand. It has leased a large building adjoining its plant at Aurora, and will purchase $50,000 worth of new machinery at once for installation therein. The plant is running night and day shifts and it is intended to erect a large addition thereto at the earliest possible date.

THE MEAD-MORRISON MFG. CO., Cambridge, Mass., announce that for the general good of the business it was thought necessary that the Rawson & Morrison Mfg. Co. should be consolidated with the Mead-Morrison Co., and the business of both companies will hereafter be conducted under the name of the Mead-Morrison Mfg. Co. All the men who have made the Rawson & Morrison Mfg. Co. successful will be retained by this company. It will continue to manufacture the same lines of machinery that both companies have been making in the past, such as hoisting engines, derrick swingers, electric hoists, belt hoists, suspension cableways, as well as cable roads and all kinds of machinery for handling coal and other bulky materials.

THE LAWRENCE PUMP & ENGINE CO., Lawrence, Mass., has been awarded the contract for the centrifugal pumps to be installed at the Arlington Mills. Included in this contract there is one pump having a capacity of 10,000,000 gallons per day, directly coupled to an electric motor to be used to supply water to the filtration plant. There is also another pump of the same capacity directly coupled to a motor of 100 HP. which will be used to furnish pure water for manufacturing purposes. In addition to the main water pumps the company is to furnish all of the auxiliary pumping machinery which is required in connection with the large water purification plant, including lime and alum pumps, also the wash pump, which has a capacity of four million gallons per day.

THE STRAUSS BASCULE & CONCRETE BRIDGE CO., 803 Chicago Opera House Bldg., reports that it has acquired the patents of Mr. J. B. Strauss and will carry on the business of designing and building bascule bridges and reinforced concrete bridges under these patents. It will also undertake general construction in steel and reinforced concrete structures. The Strauss bascule system has been adopted in a bridge recently built for the Wabash Ry. at Cleveland, O., and for a bridge to be built at Camden, N. J.; it is also embodied in the accepted design for the Knippel bridge at Copenhagen, Denmark, the designs for which were opened in international competition. Ribbed concrete steel bridges of the Strauss system have been built at Deer Park, La Salle, Ill., and at Belvidere, Ill.

A. E. HOERMANN, 261 Broadway, New York, dealer in pneumatic and other machinery, has put a new device on the market to be used in connection with an ordinary air or electric drill and to perform the work of screwing up, tightening and also unscrewing nuts. Without doubt the largest field for this tool will be the railroad market. On some of the wooden freight cars, for instance, there are as many as 600 nuts of one kind and needless to say the time consumed in tightening these by hand with a wrench is considerable. The tool built according to A. E. Hoermann's ideas has an adjustable friction arrangement, which enables the operator to regulate the tension for the largest nut to be tightened. This tool has been thoroughly tested at the shops of the C. R. R. of N. J., at Elizabethport.

THE GENERAL ENGINEERING CO., Consult. Engrs., announces its incorporation under the laws of Utah with the following as officers and directors: J. M. Callow, Pres.; Jas. W. Neill, Vice-Pres.; Frank E. Johnson, Secy. and Treas.; Geo. M. Bacon, Frank P. Callow. The offices of the company are located temporarily at Nos. 320-322 Dooly Block, Salt Lake City, until completion of the company's building at 159 Pierpont St. The company will do a general mining, metallurgical, civil and mechanical engineering business; design and construct concentrating, smelting, milling and power plants; furnish general and detail reports and estimates on all classes of engineering. The laboratory is also equipped to make a practical and continuous concentration test of from 10 to 25 ton lots.

THE ALLIS-CHALMERS CO., Milwaukee, Wis., reports that, following the recent visit at its West Allis and Reliance Works made by a party of officials of the Carnegie Steel Co. and the U. S. Steel Corporations, orders have been placed for eight pairs of standard vertical, long cross-head type, furnace blowing engines, similar to others now installed in various plants of the steel companies in the Pittsburg district which have been bilt by Allis-Chalmers. Seven pairs of these huge units will be installed at the Edgar Thompson Furnaces, Braddock, Pa., and one pair at the Isabella Furnaces, Sharpsburg, Pa., both within the Pittsburg district. Eight of the engines will have steam cylinders 44 ins. in diameter by 60 in. stroke and air cylinders 84 ins. × 60 ins. The remaining units will be equipped with steam cylinders 84 ins. × 60 ins. and air cylinders 84 ins. × 60 ins.

THE C. O. BARTLETT & SNOW CO., Cleveland, O., reports the following recent sales: Mechanical dryer to Masurite Explosive Co., Sharon, Pa.; rotary direct-heat dryer to Cleveland Asbestos Plaster Co., Cleveland, O.; steam dryer to E. H. Stanton Co., Spokane, Wash.; carload of milling machinery to Mexico City; paint machinery to Frank Stuart, Wilkinsburg, Pa.; mining machinery to Dudley H. Norris, Lacatecar, Mex.; complete plaster plant to Mahoning Builders Supply Co., Youngstown, O.; coal handling machinery to Monongahela R. Con. Coal & Coke Co., Pittsburg; paint machinery to Protectus Co., Philadelphia; mining machinery to Montana Zinc Co., Butte; ash and cinder elevator to Cleveland Light & Power Co., Cleveland; special conveyor and elevator to Barnesville (O.) Glass Co.; conveying and elevating machinery to Greenville Silica Sand & Quarry Co., Greenville, Pa.

THE H. W. JOHNS-MANVILLE CO., 100 William St., New York, has placed on the market the Transite Asbestos Lumber Smoke Jack, and a circular regarding it has just been printed. For several years past it has been the custom of the H. W. Johns-Manville Co. to gather together its various branch managers and salesmen from all over the country in an annual convention. This convention met in New York early in February and about 150 men were present. After a session lasting four days, the convention wound up with a farewell dinner at the New York Athletic Club, on Friday evening, Feb. 2. The H. W. Johns-Manville Co. are manufacturers of asbestos and magnesia products and electrical materials. Representatives from the following branches were present: Milwaukee, Chicago, Boston, Philadelphia, St. Louis, Pittsburg, Cleveland, San Francisco, Los Angeles, Seattle, Kansas City, Minneapolis, Little Rock and New Orleans.

ALLIS-CHALMERS CO., Milwaukee, Wis., reports that Castle & Cooke, Ltd., Honolulu, H. I., will install for Alexander & Baldwin, an Allis-Chalmers triple expansion, horizontal double acting plunger pumping engine of the same size and type furnished by the same builder for the Hawaiian Commercial & Sugar Co. The capacity will be 10,000,000 gallons against a head of 370 ft. and it is expected to be ready for operation early in the fall. The Traylor Engineering Co., New York, has recently purchased for the Traylor Mfg. & Const. Co., Allentown, Pa., a 14 × 24-in. Reynolds Corliss engine, direct connected to a 100-KW. engine type "Bullock" generator, operating at 150 r.p.m. The Pittsburg Ry. & Light Co., Pittsburg, Kan., many of whose stockholders are Carthage, Mo., capitalists, has recently purchased a 22 × 36-in. Reynolds Corliss engine, suited for left-hand drive and a 300-KW. engine type, direct current generator for the enlargement of the present plant. The Cyclops Iron Co., San Francisco, recently purchased a 12 × 36-in. Allis-Chalmers girder frame engine, arranged for right-hand drive. C. A. MacDonald, Chicago, builder of the "Hercules, Ill., Machine," will add a new engine unit to the present power plant of his establishment. The new unit is an Allis-Chalmers, heavy duty, tandem, compound engine, with cylinder 12 × 24 ins. in diameter and a 42-in. stroke.

**LOCK AND DAM.—Dallas, Tex.—Abstract of proposals received on Feb. 15 by Capt. W. P. Wooten, U. S. Engrs., for building lock and dam No. 1 and dam at Parsons Slough in Section One, Trinity River (1) D. C. McCord, Dallas, recommended for acceptance. S. Blome Co. (a) Plan A.**

LOCK AND DAM NO. 1.

| | (1) |
|---|---|
| 3 acres grubbing and clearing | $15.30 |
| 30,000 cu. yds. excavation | .36 |
| 2,000 lin. ft. round timber | .06 |
| 29,000 lin. ft. round piles | .19½ |
| 5 cords brush | 2.40 |
| 3,302 cu. yds. concrete in lock walls, Plan A | 9.10 |
| 4,692 cu. yds. concrete in lock walls, Plan B | 7.10 |
| 2,238 cu. yds. other concrete | 7.10 |
| 4,800 ft. B. M boulevard gates | 72.00 |
| 60 ft. B. M. oak timber | .12 |
| 47,000 ft. B. M. timber in permanent work | 84.00 |
| 37,100 ft. B. M. timber in cribs | 54.00 |
| 2,000 cu. yds. riprap | 4.92 |
| 122,903 lbs. iron and steel | .11 |
| 195,000 lbs. steel reinforcing rods, Plan A | .07 |
| 49,600 lbs. steel reinforcing rods, Plan B | .07 |
| 3,020 lbs. chain | .13 |
| 1,280 lbs. drift bolts | .09 |
| 149,000 ft. B. M. sheet piling | 60.00 |
| 1,030 lin. ft. sheet piling, steel | 3.00 |
| 7,650 cu. yds. plain filling | .18 |
| 2,600 cu. yds. compacted filling | .48 |
| 1,518 cu. yds. filling in lock walls, Plan A | .48 |
| 4,725 sq. ft. riprap paving | .18 |
| 4,760 sq. ft. paving on spalls | .21½ |
| 1,422 sq. ft. paving in concrete | .32½ |
| 410 sq. ft. paving for cribs | .36 |
| 500 sand bags, each | .12 |
| 68½ lin. ft. gages | 3.00 |
| 2,550 lbs. crab crane and service car | .23 |
| 252 frames with rollers, each | 10.80 |
| 500 lin. ft. drains under lock floor | .60 |
| Totals | (a) $128,131 |
| Totals | (b) $119,780 |

PARSONS SLOUGH DAM.

| | (1) |
|---|---|
| 5 acres grubbing and clearing | $15.30 |
| 4,500 cu. yds. excavation | .37 |
| 1,000 lin. ft. round timber | .06 |
| 13,075 lin. ft. round piles | .25 |
| 7 cords brush | 3.00 |
| 45,360 ft. B. M. sheet piles | 65.00 |
| 750 cu. yds. concrete | 8.00 |
| 300 cu. yds. riprap | 5.25 |
| 34,330 lbs. iron and steel | .10 |
| 2,400 lbs. steel reinforcing rods | .09 |
| 625 lbs. chain | .14 |
| 1,600 cu. yds. compacted filling | .55 |
| 2,240 sq. ft. paving on spalls | .25 |
| 720 sq. ft. paving in concrete | .36 |
| 250 sand bags, each | .15 |
| 9½ lin. ft. gage | 4.00 |
| 10,960 ft. B. M. timber in cribs | 60.00 |
| 4,000 ft. B. M. timber in permanent work | 90.00 |
| 800 cu. yds. surface soil | 1.00 |
| 1,050 lbs. crab | .20 |
| Totals | *$23,159 |

Amount available for this contract, $175,000.

*If awarded contract for both lock and dam No. 1 and Parsons Slough dam, D. C. McCord proposes to decrease his unit prices 5% on both pieces of work.

**If awarded contract for both lock and dam No. 1 and Parsons Slough dam, Rudolph S. Blome Co. proposes to decrease its unit prices 4% on Parsons Slough dam only.

## TRADE PUBLICATIONS.

VALVES, [illegible]ICATORS, GAGES, ETC.—The Lunkenheimer Co., Cincinnati, O. Cloth; 5 [illegible]ins.; pp. 472; illustrated.

This is the regular 1906 catalogue and price-list of [illegible] company.

ROLLER [illegible]S.—Allis-Chalmers Co., Milwaukee. Paper; 8 × 10½ ins.; pp. 32. Illustrated.

This is a description of the Allis Noiseless Belt Roller [illegible], the standard production of this company.

METAL R[illegible]NG.—Merchant & Evans Co., Philadelphia, Pa. Paper; 8 × 5½ ins.; pp. 56 [illegible]strated.

This gives general information on the kinds and [illegible] of different roofing materials, principally [illegible]et metal.

MECHANICAL INTERLOCKING. — General Railway [illegible]gnal Co., Buffalo, N. Y. Cloth; 6 × 9 [illegible] pp. 480. Illustrated.

This is a catalogue and price-list of mechanical [illegible]locking and signalling devices made by the company named above.

INCANDE[illegible]NT ELECTRIC LAMPS.—Westinghouse Electric & Mfg. Co., Pittsburg, Pa. Paper; 5 × 7½ ins.; pp. 38; illustrated.

Incandescent lamps of all shapes and capacities, both standard and special, are fully illustrated.

STEEL HAMMERS.—The David Maydole Hammer Co., Norwich, Chenango Co., N. Y. Paper; 6 × 9 ins.; pp. 48; illustrated.

This is the regular illustrated catalogue and price-list of the Maydole solid crucible cast-steel hammers.

TRACK SANDERS.—Edmund G. Fisher & Co., 706 Fisher Building, Chicago. Paper; 4 × 9 ins.; pp. 12; illustrated.

The Watters pneumatic track-sander for locomotives is described and illustrated, and a number of testimonials are given from railways using this device.

ENGINE LOAD INDICATOR.—John F. Shreiber, 373 South Campbell Ave., Chicago. Paper; 3½ × 6 ins.; pp. 4; illustrated.

This instrument is designed to give a constant reading of the load on the engine, and also to act as an overload alarm.

ELECTRIC HEATING UTENSILS.—The Portland General Electric Co., Portland, Ore. Paper; 6 × 9 ins.; pp. 16; illustrated.

The advantages gained in the use of electricity for domestic purposes and also in the use of electric signs, are set forth.

STEEL CONSTRUCTION, CRANES, ETC.—The Interstate Engineering Co., Cleveland, O. Paper; 9 × 6 ins.; pp. 72; illustrated.

This bulletin is intended to show, principally by illustration, the various lines of steel construction in which this company is engaged.

INDUSTRIAL RAILWAY SUPPLIES.—C. W. Hunt Co., 45 Broadway, New York City. Paper; 7 × 9 ins.; pp. 63; illustrated.

This contains a full list of parts for equipping an industrial plant with a narrow gage railway. Track, switches, cars, electric locomotives, portable cranes, etc., are well illustrated.

FAN MOTORS.—The Emerson Electric Mfg. Co., St. Louis, Mo. Paper; two pamphlets; 5¼ × 7¾ ins.; pp. 31; 6¾ × 9 ins.; pp. 39; both illustrated.

These pamphlets relate to the Trojan and Emerson motor-driven fans of the small class for desk and ceiling attachment; also small exhaust fans.

RAILWAY INSPECTION CARS.—Light Inspection Car Co., Hagerstown, Ind. Paper; 7 × 5 ins.; pp. 20; illustrated.

The cars, propelled by the rider have bicycle frames, seats and driving gear, with rubber-covered tires. The motor cars have heavier frames and are fitted with 3½-HP. gasoline engines.

CROSBY SPRING-SEAT VALVES.—Crosby Steam Gage & Valve Co., 16 Dey St., New York City. Paper; 6 × 9½ ins.; pp. 4; illustrated.

The characteristic novelty of this valve is its conical seats, presenting a double seating capacity, thus reducing the liability of leaking or wearing.

TRANSFORMERS.—Westinghouse Electric & Mfg. Co., Pittsburg, Pa. Paper; 7 × 10 ins.; pp. 8. Circular No. 1,120. Illustrated.

Type C is merely an addition to the several forms of core type transformers. They are made single phase in capacities from 6 to 50 KW. inclusive.

OIL ENGINES AND AIR COMPRESSORS.—De La Vergne Machine Co., Foot of East 138th St., New York City. Paper; 4 × 8½ ins.; pp. 6; illustrated.

The "Hornsby-Akroyd" crude and fuel oil engines are designed mainly for contractors' use, either stationary or portable, and are geared to air compressors.

CORRUGATED SHEET METAL.—The Brown Hoisting Machinery Co., Cleveland, O. Paper; 6 × 9 ins.; pp. 32; illustrated.

Ferroinclave is the name given to a new corrugated sheet steel of special shape. It is used principally in the construction of fire-resistive roofing, siding, flooring, etc., for factory buildings, power plants and the like.

PUNCHING AND SHEARING MACHINES.—Henry Pels & Co., 68 Broad St., New York City. Paper; 8 × 11 ins.; pp. 47; illustrated.

A wide variety of power shears and punches, single or combined, designed after the Johns patent, are described. A line of hand-power machines and adjustable trestles are also shown.

ROASTING FURNACES.—Allis-Chalmers Co., Milwaukee, Wis. Bulletin No. 1409. Paper; 8 × 10½ ins.; pp. 8; illustrated.

The McDougall roasting furnace is a mechanically operated, circular, multiple-hearth furnace of the self-contained type, having five or more hearths superimposed upon each other. The details are fully described and illustrated.

HYDRAULIC JACKS.—The Watson-Stillman Co., 46 Dey St., New York City. Catalogue No. 68. Paper; 6 × 9 ins.; pp. 91; illustrated.

This is a new edition of Catalogue No. 61 and contains a few additional sizes and cuts. Jacks of all kinds are shown—hydraulic, pneumatic and hand—of the standard manufacture of this company.

ARC-LIGHTING APPARATUS. — General Electric Co., Schenectady, N. Y. Bulletin No. 4428. Paper; 8 × 10½ ins.; pp. 36. Illustrated.

This bulletin gives a description of the different types of arc lamps designed for various purposes, and also various accessories, such as diffusers, reflectors, ceiling suspensions, transformers, etc.

GAS BOOSTERS.—B. F. Sturtevant Co., Hyde Park, Mass. Paper; 6½ × 9 ins.; pp. 8; illustrated.

This illustrates how the Sturtevant gas exhausters may be used to locally increase the pressure of gas to meet special requirements. In some sections the pressure in the gas mains is too low for brazing and must needs be increased by some means.

CORLISS ENGINES.—Allis-Chalmers Co., Milwaukee, Wis. Bulletin No. 1501. Paper; 8 × 10½ ins.; pp. 19; illustrated.

The Reliance Corliss engines are of the latest design in Corliss construction, but are designed with the idea of economizing floor space, making more concentrated power by increasing rotative and piston speeds and a more thorough reconsideration of details.

VALVES, PIPE JOINTS AND FITTINGS, AND STEAM AND OIL SEPARATORS.—Crane Co., Chicago, Ill. Paper; 7½ × 10 ins.; 18 circulars, varying from 4 to 32 pp.; illustrated.

These circulars give specifications for pipe bends, automatic and mechanical relief and stop valves, expansion and flanged pipe joints, steam traps and separators, and pipe dies.

GASOLINE INSPECTION CARS.—Railway Appliances Co., Old Colony Building, Chicago. Paper; 6 × 9 ins.; pp. 8; also circulars 8¼ × 12 ins.; all illustrated.

The pamphlet and circulars illustrate a number of designs of inspection and section cars operated by gasoline engines. A small motor passenger car for railway service and a gasoline locomotive for mine and industrial work are also included.

LATH MILLS AND BOLTERS.—Allis-Chalmers Co., Milwaukee, Wis. Paper; 8 × 10½ ins.; pp. 11. Bulletin No. 1,701. Illustrated.

Single, three, or ten saw lath-mills are described in detail. An important feature is the new guide, so constructed that a 1½ in. square picket can be taken off of any bolt and the remainder made into lath. The feeds are especially powerful.

STEEL HIGHWAY TRACK.—The Steel Highway Track Construction Co., Pittsburg, Pa. Paper; 9¼ × 6 ins.; pp. 24; illustrated.

The track consists of broad, flat rails attached to cast-iron chairs or supports, the top of the rail being level with the road surface. The rail has a rib on the under side and a lip on the inner edge to retain wheels on the track. It is the invention of Mr. T. H. Gibbon, and has been laid on a stretch of road at Etna, Pa. A modified system has the rails embedded in concrete, dispensing with the cast-iron supports.

STEAM STAMP.—Allis-Chalmers Co., Milwaukee, Wis. Bulletin No 1404. Paper; 8 × 10½ ins.; pp. 47; illustrated.

The Tremain steam stamp mill has been designed especially to meet the demands of those who own mining properties in the first stages of development, and desire an inexpensive crushing, amalgamating or concentrating plant of moderate capacity. Very complete instructions for the erection and care of the stamp and other accessories, together with the capacity, amount of fuel and water required, are given. The bulletin also gives a method, in detail, for testing free milling gold ores without a mill.

ELECTRIC LIGHTING APPLIANCES, CABLES AND SWITCHES.—General Electric Co., Schenectady, N. Y. Paper; 8 × 10½ ins. and 5¼ × 7¾ ins.; pp. 4, 34, 16, 2; illustrated.

Bulletin No. 4,431 is descriptive of modern appliances for interior illumination, more particularly the "enclosed arc" and concentric diffuser used in stores, shops, etc. Catalogue No. 7,594 gives price lists of the various commercial arc lamps. No. 1,050 states the advantages of varnished cambric cables over other insulations and gives price list for different sizes. Two flyers Nos. 2,169 and 2,170 deal with knife and also flush pocket switches.

CONCRETE MIXER.—The Eureka Machinery Co., Jackson, Mich. Paper; 10½ × 8 ins., pp. 8; illustrated.

The mixer is of the trough type, with a longitudinal shaft fitted with blades or paddles. At the receiving end is a hopper with compartments for the materials, and these compartments have automatic feeders to deliver the materials in any desired proportions. Water is sprayed from a pipe above the trough, to which a hose can be attached. Agitators in the hoppers secure a steady feed. The machine, with a gasoline engine and small pump, can be mounted on a truck, so that for sidewalk work, etc., it can be moved along as the work progresses, and so save much wheeling of the concrete.

STEAM ENGINES.—Harrisburg Foundry & Machine Works, Harrisburg, Pa. Paper; 6 × 9¼ ins.; pp. 57; illustrated.

This attractive publication is devoted to descriptions of the several types of Fleming engines built by the company, which are illustrated by line drawings and half-tone engravings. Some of the principal construction features and parts are described in detail. They are all horizontal engines, mostly with single piston valves for both simple and tandem compound engines, but there is also a four-valve arrangement which is the adaptation of the Corliss system to short-stroke, high-speed engines. Ordinary long-stroke Corliss engines are also included. Other specialties include the Fleming steam turbine and the Fleming superheater.

**For other Proposal Advertisements see pages 43, 44, 45, 46, 47, 48, of Advertisements and Construction News page 92.**

## WATER PIPE, SPECIALS AND WATER METERS.

Winnipeg.

Separate sealed tenders, addressed to Ald. J. C. Gibson, Chairman of the Fire, Water and Light Committee, for the supply of a quantity of water pipe and specials of various sizes and water meters for the City Water-Works, will be received at the office of the undersigned up to 3.30 p. m., on

MONDAY, MARCH 26, 1906.

Specifications and forms of tender may be obtained at the Office of H. N. Ruttan, City Engineer, Winnipeg, Canada.

Each separate tender must be accompanied by an accepted cheque or draft, payable to the order of the City Treasurer, or cash deposit for the sum called for in the form of tender supplied, which will be subject to forfeiture in case of failure on the part of the contractor to enter into a written contract with approved sureties if called upon to do so.

The city reserves the right to reject any or all tenders or to accept any bid which appears advantageous to the City of Winnipeg.

C. J. BROWN,
City Clerk.

City Clerk's Office,
Winnipeg, March 1, 1906. 10-2t

## ASPHALT PAVEMENTS.

Green Bay, Wis.

This city will open bids April 2d for construction of about two miles Asphalt Pavements. For particulars, address

W. W. REED,
10-2t City Engineer.

DEPARTMENT OF THE INTERIOR, Washington, D. C., February 8, 1906. Sealed proposals will be received at the office of the Engineer, United States Reclamation Service, Glendive, Mon., March 12, 1906, for furnishing about 427,000 pounds of square steel bars for reinforcement of concrete. Particulars may be obtained by application to the Chief Engineer of the Reclamation Service, U. S. Geological Survey, Washington, D. C., or to the Project Engineer, Glendive, Mon. THOS. RYAN, Acting Secretary. 7-4t

## WATER-WORKS EQUIPMENT.

City Clerk's Office, East Orange, N. J.

Sealed proposals, addressed to Edgar Williams, City Clerk, will be received by the City Council of East Orange, at their Council Room in the City Hall, on Main Street, on the 26th day of March, 1906, at eight o'clock P. M., for the following material and labor at White Oak Ridge Pumping Station:

Furnishing and erecting one 12-inch Centrifugal Pump connected direct to one 45-HP Electric Motor.

Furnishing and erecting 4,700 feet of pole and wire transmission line between the main pumping station and sub-station.

Furnishing and erecting air pump, vacuum chamber, gages, switchboard, electric instruments, etc.

The above proposal must be endorsed "Proposal for Centrifugal Pump and Electrical Machinery, East Orange Water-Works."

Sealed proposals will also be received at the same time and place for the following material and labor at White Oak Ridge Pumping Station:

Subdivision A.

Furnishing 474 tons of cast-iron pipe.
8 tons of bell and spigot specials, and
5 tons of flanged specials.

Subdivision B.

Laying 2,450 feet of 24-inch cast-iron pipe.
2,490 feet of 20-inch cast-iron pipe.
300 feet of 12-inch cast-iron pipe.

Building an overflow chamber and manhole, and setting blowoff.

Connecting up driven wells and building sub-station building.

Proposals for Subdivision A must be endorsed "Proposal for Furnishing Cast-Iron Pipe," and proposals for Subdivision B must be endorsed "Proposal for Laying Cast-Iron Pipe and Connecting Wells."

Specifications and plans may be seen at the Office of C. C. Vermeule, Engineer in Charge, 203 Broadway, New York, or at the office of the Water Department, City Hall, East Orange, New Jersey.

Proposals must be addressed to Edgar Williams, City Clerk, and delivered to him not later than 8 o'clock p. m. on March 26th, 1906.

The City Council reserves the right to accept or reject any or all bids.

EDGAR WILLIAMS,
City Clerk.

Dated March 2d, 1906. 10-3t

## GRAVITY YARD.

Peoria, Ill.

Bids are asked until noon, March 30, 1906, by the Peoria & Pekin Union Ry. Co., Peoria, Ill., for the construction of a gravity yard in East Peoria, containing 23 miles of tracks, involving about 140,000 cu. yds. of excavation and 2,000 cu. yds. of concrete. Plans and specifications can be seen at the office of STANLEY MILLARD, Ch. Engr., Room 31 Union Station, Peoria, Ill. 10-1t

DEPARTMENT OF THE INTERIOR, Washington, D. C., March 1, 1906.—Sealed proposals will be received at the office of the United States Reclamation Service, Carlsbad, New Mexico, until 2 o'clock p. m., April 12, 1906, for the construction of a dam in Pecos River, involving the placing of 75,000 cubic yards of earth, 40,000 cubic yards of rock fill, 12,000 linear feet of steel sheet piling, 3,300 cubic yards of rubble concrete, and the furnishing and placing of about 219,000 pounds of steel, in connection with the Carlsbad Project, New Mexico. Specifications, forms of proposal and plans may be obtained from the Chief Engineer of the Reclamation Service, Washington, D. C., or from the Supervising Engineer, Carlsbad, New Mexico. E. A. HITCHCOCK, Secretary. 10-4t

PROPOSALS FOR TWO SNAGBOATS.—U. S. Engineer Office, Vicksburg, Miss., Jan. 8, 1906.—Sealed proposals, in triplicate, for construction and delivery of two steel snagboats will be received here until 12 noon, standard time, March 10, 1906, and then publicly opened. Information furnished on application. G. M. HOFFMAN, Capt., Engrs. 10-1t

U. S. ENGINEER OFFICE, 22d and K Sts., N. W., Washington, D. C., March 5, 1906.—Sealed proposals for dredging in Breton Bay, Md., and in Mattaponi and Pamunkey Rivers, and Occoquan and Carters Creeks, Va., will be received here until 12 m., April 4, 1906, and then publicly opened. Information on application. SPENCER COSBY, Capt., Engrs. 10-4t

U. S. ENGINEER OFFICE, 3232 Prytania St., New Orleans, La., February 28, 1906.—Sealed proposals for dredging channels at the mouth and inner pass of Calcasieu River, La., and for rebuilding rock revetment, will be received here until 11.30 A. M. March 28, 1906, and then publicly opened. Information furnished on application to this office. J. F. McINDOE, Capt., Engrs. 9-4t

OFFICE CALIFORNIA DEBRIS COMMISSION, Flood Building, San Francisco, Cal., Feb. 28, 1906.—Sealed proposals for constructing spillway and placing large rock at Barrier, Yuba River, Cal., will be received here until 12 noon, March 30, 1906, and then publicly opened. Information furnished on application. WM. W. HARTS, Capt., Engrs., Secy. 9-4t

## PROPOSALS

### WATER-WORKS AND SEWERS.

Franklin, Va., Feb. 28, 1906.

Sealed proposals will be received until one P. M., Tuesday, March 27, 1906, for the construction of water-works and sewerage system for the Town of Franklin, Va.

About 350 tons of cast-iron pipe and specials, tower and tank, steam pump and connections, 55 double nozzle fire hydrants, valves and boxes, pipe laying, digging and backfilling.

About 20,000 ft. of 6-in., 8-in., 10-in., 12-in. and 15-in. salt glazed sewer pipe; 24 ft. of 16-in., 60 ft. of 12-in. and 12 ft. of 10-in. cast-iron pipe. About 600 Y branches and tees; 30 manholes; 12 flush tanks; 30 lamp holes; 6 hose flush openings.

Send sealed bids to W. T. Pace, marked on outside "Proposals." A certified check for $250.00 must be sent with each bid. Plans and specifications will be ready on the 12th.

Specifications sent on application to the Engineer.

Town Council reserves the right to reject any or all bids.

CHAS. S. YORK,
Consulting Engineer,
1526 E. Biddle St., Baltimore, Md.
9-2t 12-1t

### WATER-WORKS.

Glendive, Mont.

Notice is hereby given, That; Sealed proposals for the construction of a water-works system will be received by the City Clerk of the City of Glendive, Montana, until 10 o'clock A. M., of the 19th day of March A. D. 1906, at which time they will be publicly opened and read.

The work will comprise six different portions, as follows:

1st: The furnishing of wood or cast-iron water pipe and special castings for the pipe system.
2d: The furnishing of fire hydrants.
3d: The furnishing of valves and valve boxes.
4th: The pipe laying.
5th: A steam pumping plant.
6th: A 300,000-gal. reinforced concrete reservoir and two 200,000-gal. reinforced concrete settling basins.

Bids will be received for any one or more of the above portions, and the right is reserved to let the work in separate contract as above divided or in one or more contracts as the Common Council may determine, and to reject any and all bids.

A certified check made payable unconditionally to the order of the City Treasurer of Glendive must accompany each bid and must be in an amount equal to 5 per cent. of the amount of the bid.

All bids must be made on blank forms furnished for that purpose.

Plans and specifications and blank forms of proposal may be obtained at the office of the City Clerk and at the office of Loweth & Wolff, Consulting Engineers, First National Bank Building, St. Paul, Minn.

Dated at Glendive, Montana, this 20th day of February A. D. 1906.

By order of the City Council of Glendive, Montana.

(SEAL) HANS J. HALVORSEN,
9-3t City Clerk.

### LAYING CAST-IRON PIPE.

Cincinnati, O.

Sealed proposals will be received at the office of the Board of Trustees, "Commissioners of Water-Works," of the City of Cincinnati, O., until 12 o'clock noon of Friday, March 23d, 1906, for the laying of two sections of cast-iron pipe.

The aggregate length of the two sections of the main to be laid is about 11,930 lineal feet of 60-inch cast-iron pipes.

Plans and profiles of the work and copies of the specifications, estimated quantities of the work to be done, form of proposal, forms of bonds, and form of contract, can be secured at the office of the Chief Engineer of the Board of Trustees, "Commissioners of Water-Works."

The bids shall be accompanied with bonds, certified checks, bank certificates of deposit or cash in the sum of $6,000.00 and $5,000.00, respectively, for the acceptance of the contracts, if awarded by the Board of Trustees, "Commissioners of Water-Works."

Bidders must furnish satisfactory evidence of their ability to do the class of work required.

AUG. HERRMANN,
President.

ELMER G. PRIOR,
Acting Clerk. 9-3t

### STREET PAVING AND STORM WATER SEWERS.

Spartanburg, S. C.

Sealed proposals, addressed to the City Council, care the City Clerk, Spartanburg, S. C., will be received until 4 o'clock P. M., March 26th, 1906, for furnishing material and labor for paving East Main Street from Liberty Street to Fairview Avenue, North Church Street from Kennedy Place to Cleveland Street, South Church Street from Broad Street to Hampton Avenue, and Walnut Street from Magnolia Street to North Church Street, with Vitrified Brick, Bitulithic or Bituminous Macadam, or Asphalt Block. The surface to be covered is approximately 55,000 square yards. The material to be used will be selected by the City Council after bids are opened.

Sealed proposals will also be received at the above time for furnishing material and labor to construct approximately 50 catch basins, and approximately 12,000 feet of storm sewers.

Plans and specifications may be had by applying to the office of the City Engineer after March 10th, 1906. When requesting specifications bidders will state the kind of pavement they will submit bids for. A certified check for One Thousand ($1,000) Dollars must be deposited with each proposal.

The City Council reserves the right to reject any and all bids.

FRED L. BRYANT,
9-2t City Engineer.
Spartanburg, S. C., February 24th, 1906.

WANTED to let the LAYING OF ABOUT 3,000,000 BRICK and a large amount of terra cotta. Work can start at once. Work is located at Utica, N. Y. Apply

CONNERS BROS. CONSTRUCTION CO.,
9-1t Lowell, Mass.

U. S. ENGINEER OFFICE, New London, Conn., March 1, 1906. Sealed proposals in triplicate for dredging in Thames River, Conn., will be received here until 12 o'clock, noon, March 31, 1906, and then publicly opened. Information furnished on application. C. F. POWELL, Lt. Col., Engrs. 9-4t

### OPEN INTERMITTENT SAND FILTERS.

Springfield, Mass.

Sealed proposals will be received until noon, March 19th, 1906, at the office of the Board of Water Commissioners, for work in connection with the construction of four open intermittent sand filters. Plans may be seen, and copies of the contract and specifications obtained, at the office of E. E. Lochridge, Engineer Water Department, 43 Bridge St., Springfield, Mass., or at the office of Hazen & Whipple, Consulting Engineers, St. Paul Building, New York City.

The work to be done is approximately as follows:

Excavating and placing 40,000 cubic yards of filter sand and earth work.
350 cubic yards of concrete masonry.
Laying 12,750 lineal feet of lateral drains.

Each bid must be accompanied by a certified check for $500, payable to the order of the Board of Water Commissioners.

The right is reserved to reject any and all bids.

E. E. STONE,
C. H. BENNETT,
FRANCKE W. DICKINSON,
Board of Water Commissioners,
9-3t Springfield, Massachusetts.

Plans and specifications may be seen at New York office of Engineering News, 220 Broadway.

### WATER-WORKS — ELECTRIC PLANT.

Marlow, Ind. T.

Sealed bids will be received and opened by the Mayor of Marlow, Ind. T., Mr. W. B. Anthony, March 21st, 1906, for the material needed in the construction of a water and light system for said town. There will be required boilers, pumps, engine, A. C. generator, switchboard, cast-iron pipe, standpipe, valves and hydrants.

Specifications can be had by addressing the O'Neil Engineering Co., Dallas, Texas.

Bids will be received for material only—money is in the city treasury to pay for material purchased. The right is reserved to reject any and all bids. 9-2t

## Situations Open

WANTED.—Civil engineers and draftsmen on street railway and special work. Men with technical school training required. State age, experience and salary wanted. Address PENNSYLVANIA STEEL CO., Frog & Switch Department, Steelton, Pa. 10-2t

WANTED.—Superintendent to take charge of contract for submarine blasting. Address "R. B." Engineering News, New York. 10-1t

A-1 STRUCTURAL DRAFTSMAN capable of designing, detailing and estimating. Must have good address. Best prospects and permanent position to right party. Particulars. Address "O. A. 10," Engineering News, New York. 10-1t

LARGE ELECTRICAL MANUFACTURING COMPANY wishes experienced switchboard engineers and draftsmen. Reply BOX 824, New York. 10-1t

WANTED.—Structural draftsman for detailing and checking mill building work by Company in Eastern Pennsylvania. State experience, salary and whether married or single. Address "P. B. 10," Engineering News, New York. 10-1t

WANTED.—Draftsman on water-works piping system maps; one with some knowledge of field work preferred. Position permanent. Salary $85 per month. Address AMERICAN PIPE MFG. CO., Operating Department, 112 North Broad St., Philadelphia. 10-1t

DESIGNER FOR REINFORCED CONCRETE BUILDING WORK, WITH SEVERAL YEARS' EXPERIENCE ON STRUCTURAL STEEL PREFERRED. UNIT CONCRETE STEEL FRAME COMPANY, 1413 COMMONWEALTH BLDG., PHILADELPHIA, PA. 10-1t

WANTED.—Shop foreman, experienced in structural Ironwork, to assume charge of old-established business, and one willing to invest three to five thousand. Address "M. A. 10," Engineering News, New York. 10-1t

WANTED.—Transitman for city work in suburbs of New York; draftsman preferred; experience requisite. Address "L. A. 10," Engineering News, New York. 10-1t

TWO CLERKS WANTED in the office of New York City Engineering Corporation, at a salary of $50 per month. Young men preferred who have begun a technical course. Address "X. B. S." Engineering News, New York. 10-1t

WANTED.—Several structural draftsmen. MINNEAPOLIS STEEL & MACHY CO., Minneapolis, Minn. 10-3t

WANTED.—Graduate surveyor, experienced in accurate property surveys, mapping and computations. Steady work for reliable man. Address "S. B. 10," Engineering News, New York. 10-1t

## FOR SALE

FOR SALE

### AIR FURNACE

50-ton patent Wellman Rolling Furnace, suitable for Malleable Iron or Air Castings. In good order. Will be sold cheap for want of use. Address 9-2t

"E. B. 9," Engineering News, New York.

FOR SALE

### QUARRY EQUIPMENT.

THOROUGHLY OVERHAULED AND IN GOOD WORKING CONDITION.

One Sullivan "Y" channeler, boiler, and bits.
Two Rand Drills, Little Giant, steam or air.
One 30-HP. Atlas engine, ball governor.
One 40-HP. Atlas boiler, return tubular.
One 80-HP. Nagle boiler, upright.
One 8 x 36-in. Cook deep well pump, steam.
One 6 x 4 x 6-in. Smith-Vaile Duplex Pump.
One Reinert Cableway, 500-ft. span, self-filling bucket, complete.
One Gardner Air Compressor, 8 x 8 x 8, with tank.
Two Boyer "B" pneumatic hammers.
One Byers hoist 6½ x 7, D. D., D. C., without boiler.
One Byers hoist, No. 52, D. D., D. C., without boiler.
One Byers hoist, No. 52, D. D., D. C., with boiler.
One Mundy hoisting engine, 7 x 10, D. D., D. C., without boiler.
One American hoisting engine, 8¼ x 10, D. D., D. C., without boiler.
Two 1-yd. Wonham-Magor all-steel side dump cars. 9-4t

WM. P. CARMICHAEL, Williamsport, Ind.
